RTAC TRANSPORTATION FUNDING PRIORITIES

1. REDUCE THE HURF TRANSFERS IN THE BUDGET:

Budget negotiations are underway between legislative leadership and the Governor. In the Governor's budget proposal, he recommended transferring \$108 million in transportation-related revenues, predominantly the Highway User Revenue Fund (HURF) and State Highway Fund (SHF), to DPS to pay for highway patrol operations. The initial reaction from legislators including the Speaker was that they wanted to do more for transportation than what was in the Governor's budget and they have continued to express that position. In fact, by all accounts, leadership is pushing to stop the transfers in their discussions with the Governor. There are many budgetary challenges that are limiting the ability to reduce the state's reliance on transportation funding to balance the general budget. There is no sizable surplus this year, there is substantial increased spending pressure predominantly from education, several pending lawsuits against the state, and the potential for losing substantial federal health care dollars. For those reasons, the support to end the transportation funding transfers must be reinforced. ***PLEASE CONTACT LAWMAKERS AND TELL THEM TO KEEP FIGHTING TO END THE TRANSPORTATION FUNDING TRANSFERS IN THE BUDGET.***

2. SUPPORT SB1146 – DPS FUNDING AND ALT. FUEL VEHICLE FEES & TAXES:

Senator Worsley, chair of the Senate Transportation & Technology Committee, has successfully steered this bill through the first committee hearing deadline. It has two major parts. First, it would create an annual fee that would be paid along with VLT renewal to be set at an amount that would cover annual DPS highway patrol costs, estimated at roughly \$130 million a year. Second, the bill addresses the user parity issue by establishing fuel taxes for natural gas-fueled vehicles and annual fees for other alternative fuel vehicles to be set at rates comparable to the costs incurred by the average traditionally-fueled vehicle. Establishing a new funding source that would adequately cover DPS costs is the easiest answer to overcoming all of the challenges to reducing the transportation funding transfers in the budget so this bill is very much connected to the first priority of stopping the transfers. ***PLEASE URGE LAWMAKERS TO SUPPORT SB1146 PROVIDING NEW FUNDING FOR DPS AND NEW REVENUES FROM ALTERNATIVE FUEL VEHICLES.***

3. SUPPORT A STATEWIDE TRANSPORTATION FUNDING INCREASE:

While HCR2011, which would have referred a ten-cent fuel tax increase to the voters, has died and is unlikely to resurface this year, momentum continues to grow and we need to support that effort. At this stage, we don't necessarily need to agree on the source or amount, but we do need to reassert the need and press lawmakers to help resolve this issue. ***PLEASE URGE LAWMAKERS TO SUPPORT INCREASING TRANSPORTATION REVENUES WHICH HAVE NOT BEEN ADJUSTED IN OVER 15 YEARS FOR THE SAKE OF OUR SAFETY AND ECONOMY.***
