### Notes

**Apportionments** represent the amount of federal funding based on formula. Apportionments generally exceed obligation authority (OA), resulting in excess apportionments that cannot be obligated. Over the life of a multi-year federal transportation program authorization, apportionments may accumulate but cannot be utilized unless Congress approves a matching amount of OA. There is no guarantee Congress will provide the OA necessary to fully utilize apportionments.

**Obligation Authority (OA)** is the amount of authorized apportionments which Congress allows states to obligate in an individual year. This is the amount which FHWA will reimburse. Effective 10/01/16 the OA to apportionments is estimated at 90% changed from 94.93%.

**DATE:** March 13, 2018  
**SUBJECT:** HSIP Fund Transfer Update

On January 9, 2018, the Executive Board voted to allow MPO staff to seek out a Loan for HSIP funds in order to advance the four eligible HSIP projects from State Fiscal Year 2019 to State Fiscal Year 2018.

On February 5, 2018 staff was able to secure a transfer with ADOT for \$105,353 with no payback to ADOT. This amount allows the Agencies that received HSIP eligibility to Advance the Design of those projects into State Fiscal Year 2018 and allows ADOT to free up \$395,086 of HSIP funds in State Fiscal Year 2019.

**MEMO TO:** SUN CORRIDOR MPO EXECUTIVE BOARD  
**FROM:** Irene Higgs, Sun Corridor MPO Executive Director  
**DATE:** March 13, 2018  
**SUBJECT:** HURF Exchange Update

The use of federal funding requires compliance with certain federal environmental, procurement and other regulations. These requirements typically result in longer project duration and higher costs than if the project were built with non-federal funds.

ADOT routinely administers federally-funded projects and can generally deploy the discretionary federal funding quickly. In light of this, the COGs/MPOs and ADOT supported legislation in 1997 authorizing the exchange of HURF monies distributed to the State Highway Fund (SHF) for COG/MPO STBG funding. Known as "HURF Exchange," this program is targeted to cities/towns/counties with population of 200,000 or less. It enables these LPAs to build projects using state funding, avoiding the expensive and time-consuming federal regulatory requirements. Because the HURF Exchange results in reduced costs and administrative burden for participating LPAs and transfers that burden to ADOT, the statute allows ADOT to pay \$.90 cents in SHF for each \$1 of federal funding exchanged.

ADOT Officially reinstated the HURF Exchange Program on October 1, 2017. In January, 2018 copies of the Official Policy, FAQs, the Initiation Packet, the Intergovernmental Agreement (IGA) Template, and reimbursement form were posted on the [ADOT website](#). In addition, in January, ADOT offered a series of webinars for COGs, MPOs, Local Public Agencies and any entity interested in the HURF Exchange Program.

**MEMO TO:** SUN CORRIDOR MPO EXECUTIVE BOARD  
**FROM:** Irene Higgs, Sun Corridor MPO Executive Director  
**DATE:** March 13, 2018  
**SUBJECT:** HSIP Call for Projects

On 01/18/2018 ADOT announced a formal HSIP Call for Projects for State Fiscal Years 2021 and 2022. Applications will be due by May 4, 2018.

The call for projects is in support of the Transportation Performance Management and the Arizona Strategic Highway Safety Plan. The call for projects will focus on reducing fatalities and serious injuries on all public roads; and all projects submitted will compete for statewide HSIP funds.

- \$23,000,000 of HSIP funds is available in FY21 and \$32,000,000 is available for FY22.
- Applications will be submitted directly from the COGs and MPOS to the HSIP Program Manager and are due by COB Friday, May 4, 2018.
- Without prior approval, projects are capped at \$5 million.
- A 15 member Safety Review Committee comprised of FHWA, local staff and ADOT staff will be established to review and approve project rankings after the application deadline.
- If all HSIP funds are not committed during the initial call for projects, a second call may be made.
- Total systemic project funding will be limited to no more than 20% of the total FY HSIP funding (unless special circumstances dictate otherwise).

The SCMPO Technical Advisory Committee recommends the following projects for submittal to ADOT for review for HSIP eligibility.

For additional Project information, please review the [HSIP Corridors Project Report](#) from the SCMPD Strategic Transportation Safety Plan (<https://scmpo.org/wp-content/uploads/2016/08/SCMPO-STSP-Appendix-B.pdf>).

The SCMPD staff recommends approval of the HSIP list of projects to submit for HSIP eligibility.

**DATE:** March 13, 2018  
**SUBJECT:** Approve the proposed 2018 Air Quality Conformity list for Spring 2018 Air Quality Conformity Analysis and proceed with the 30 day public review/comment period.

The 1990 Federal Clean Air Act requires that regional transportation plans and programs be in conformance with all applicable air quality plans. To comply with this requirement, an air quality conformity analysis of the FY2016-2025 Transportation Improvement Program (TIP) and Regional Transportation Plan 2040 (RTP) needs to be completed.

All Sun Corridor MPO member agencies have been consulted regarding projects to be incorporated into the draft documents, including locally and privately funded projects.

Sun Corridor MPO staff recommends the approval of the proposed 2018 Air Quality Conformity list for Spring 2018 Air Quality Conformity Analysis and to proceed with the 30 day public review/comment period.

**MEMO TO:** SUN CORRIDOR MPO EXECUTIVE BOARD  
**FROM:** Irene Higgs, Sun Corridor MPO Executive Director  
**DATE:** March 13, 2018  
**SUBJECT:** Approve the updated CAG/SCMPO Human Services Transportation Coordination Plan 2018

The Central Arizona Governments (CAG) and Sun Corridor Metropolitan Planning Organization (SCMPO) recognize that the transit environment is dynamic and dependent on stakeholder involvement. As a result, CAG and SCMPO reviews and updates the Human Services Transportation Coordination Plan every three years with minor annual updates in order to capture adjustments. This Plan update is a one year, minor update for State Fiscal Year 2018. The Plan includes updated regional demographic information as well as the status of new and existing transportation providers serving the transportation dependent and disadvantaged populations of the Region.

The CAG/SCMPO Human Services Coordination Plan 2018 went out for the 30 day comment review period from January 10, 2018 – February 8, 2018. CAG and the Sun Corridor MPO did not receive any comments from the public.

The SCMPO staff recommends approval of the updated CAG/SCMPO Human Services Transportation Coordination Plan 2018.

## I. INTRODUCTION

### ***Unified Planning Work Program (UPWP):***

The UPWP (aka Work Program-WP) guides the transportation planning activities and related tasks of the Sun Corridor MPO staff, and operates within a financially constrained budget on a state fiscal year. The Work Program shall be prepared by the Sun Corridor MPO staff, and approved annually by the Sun Corridor Technical Advisor Committee ([TAC](#)) and Executive Board.

The Work Program identifies the planning priorities and activities to be carried out within a metropolitan planning area to include: (23CFR450.104)

- A description of planning work (tasks) and measurable outcomes and products;
- Who will perform the work;
- Timeframes for completing the work;
- Cost of the work; and
- Source(s) of funds.

### ***Description of Sun Corridor MPO area:***

As a result of the 2010 United States Census, the City of Casa Grande, Coolidge, Eloy, and surrounding unincorporated areas of Pinal County was designated as Urbanized with a population of over 50,000. It encompasses 1,155 square miles.

The 2010 U.S. Census population of communities within the Sun Corridor MPO:

Community	Population
Eloy	16,631
Arizona City (Unincorporated)	10,475
Coolidge	11,825
Casa Grande	48,571
Pinal County (Unincorporated rural areas)	31,316
<b>TOTAL</b>	<b>118,818</b>

Source: 2010 U.S. Census

***Approval and Authorization:***

On May 6, 2013, Arizona Governor Jan Brewer sent a formal letter to the Federal Highway Administration requesting establishment of the Sun Corridor Metropolitan Planning Organization. The Sun Corridor MPO was established on this date.

***Comprehensive Transportation Planning Activities:***

The Sun Corridor MPO will lead the development of the Sun Corridor MPO area Regional Transportation Plan (RTP), the Transportation Improvement Program (TIP), Strategic Transportation Safety Plan, as well as transit planning activities within the region.

The Sun Corridor MPO activities are funded by federal aid funds from the United States Department of Transportation (FHWA, and FTA), the Arizona Department of Transportation, and by member local governments, through fee or in-kind services.

***Planning Priorities:***

The Sun Corridor MPO Regional Transportation Plan 2040, Creating Connectivity, defines the region's strategy for creating a regional transportation system that accommodates the current mobility needs of residents, while also looking to the future. The RTP presents a recommended investment strategy (RIS) for expenditure of federal funds within the Sun Corridor MPO region.

The RIS priorities were developed based on technical analysis, public and stakeholder input received through stakeholder outreach and Sun Corridor TAC member directives.

The RIS recognizes the publics and stakeholders' priority to maintain existing infrastructure, yet provides sufficient flexibility to modernize and expand the roadway system as needed. The RIS drives the allocation of resources and influences project selection, yet are sufficiently flexible to allow Sun Corridor MPO agencies to accommodate and respond to changing needs and emerging priorities.

The funding allocations defined in the RIS underscore the goals of Sun Corridor MPO agencies to both preserve the current system and to expand travel choices for residents and visitors, while also strategically investing to create/retain jobs.

- 60% Preservation
- 30% Modernization
- 10% Capacity

The impact of the RIS on transportation system performance will be limited because of the realities of diminishing long-range revenues. However, the RIS allocations across categories show the commitment of Sun Corridor member agencies to:

- Preserve the region's major roadways (arterial and collectors).
- Improve mobility and safety through modest expansion as needed to address economic development needs.
- Support economic development by investing in transportation corridors that improve connectivity to employment.
- Increase safety and efficiency via system modernization.

### **Air Quality Activities:**

Both the Sun Corridor MPO and the Maricopa Association of Governments (MAG) include portions of the West Pinal PM-10 Nonattainment Area and West Central Pinal PM-2.5 Nonattainment Area. Both nonattainment areas are covered by the boundaries of both the Sun Corridor MPO and MAG. Consequently, transportation conformity is required to be demonstrated for both nonattainment areas by both agencies.

Metropolitan transportation plans, programs and projects in the nonattainment areas must satisfy the requirements of the federal transportation conformity rule. The principal criteria for a determination of conformity are:

- 1) The Transportation Improvement Program (TIP) and Regional Transportation Plan (RTP) must pass an emissions budget test with a budget that has been found to be adequate or approved by EPA for transportation conformity purposes, or interim emissions tests;
- 2) The latest planning assumptions and emission models in force at the time the conformity analysis begins must be employed;
- 3) The TIP and RTP must provide for the timely implementation of transportation control measures (TCM's) specified in the application air quality implementation plans;
- 4) Consultation with MAG, ADOT, FHWA, FTA, ADEQ and members of the Sun Corridor MPO is essential to ensuring projects and projects in the nonattainment areas conform to the rules.
- 5) A Memorandum of Understanding (MOU) was developed to ensure coordination of the transportation planning activities in MAG and the Sun Corridor MPO planning areas in the Pinal County area. The MOU was signed on September 8, 2016.
- 6) The Sun Corridor MPO and MAG will meet quarterly or more often, if deemed appropriate, to develop and maintain a common schedule for Regional Transportation Plan (RTP) and Transportation Improvement Program (TIP) actions that require transportation conformity determinations. Hosting of the coordination meetings will alternate between SCMPO and MAG, with SCMPO

hosting the initial meeting. The MPO hosting the meeting will be responsible for providing a meeting facility, preparing and distributing both agendas and meeting notes.

7) The executive directors of SCMPD and MAG, and staff from the Arizona Department of Transportation (ADOT) and the Arizona Department of Environmental Quality (ADEQ) will hold an annual meeting at or about the beginning of the calendar year. The purpose of the annual meeting will be to engage in discussion of mutual interests focused on the development of the Unified Planning Work Programs of MAG and SCMPD.

Hosting of the meeting will alternate between SCMPD and MAG, with MAG hosting the initial meeting in 2017. The Party hosting the meeting will be responsible for providing a meeting facility, preparing and distributing agendas, taking meeting notes and distributing them to the other Parties following the meeting.

**DRAFT**

The Sun Corridor MPO provides multi-modal transportation planning services to the cities of Casa Grande, Coolidge, Eloy, and small urban and rural areas of Pinal County. It covers 1,155 square miles and has an estimated population of 118,818.

### **III. FUNDING DESCRIPTION & BUDGET SUMMARY**

The Arizona Department of Transportation (ADOT) is the designated recipient of the Federal-aid Highway funds used for planning and research purposes. As the designated recipient of the planning funds ADOT has the responsibility and the authority under **2 CFR Part 200** (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments) to oversee all activities under the Federal-aid Program by the sub recipients of these funds. ADOT's oversight responsibilities include but are not limited to overall Work Plan review, invoice billing review and approval, TIP certification, air quality reviews, and quality assurance and quality control of traffic data. Work Programs are funded primarily with Planning Funds (PL); however, an MPO may use other eligible funds for their Work Program.

All work, including Sun Corridor staff time and consultant studies, listed in the Work Program are funded by one or more of the following funding sources:

- (1) **Metropolitan Planning (PL) Funds** – Federal metropolitan planning funds can be used for up to 94.3% of a project, with a required 5.7% match typically provided by local governments. The distribution of the PL Funds is accomplished through a formula developed by ADOT in consultation with the MPOs and must be approved by the FHWA.
- (2) **Statewide Planning and Research (SPR) Funds** – SPR funds are federal dollars from the State Planning and Research Program administered by the Arizona Department of Transportation. Some SPR funds may be allocated to the MPO to help plan for the non-urbanized portion of the MPO. A 20% match is required and must be provided by the local jurisdiction, depending on the project.
- (3) **Federal Transit Administration Funding** – FTA funds are secured annually through the FTA Metropolitan Planning Program Section 5303/5305. FTA funds are designated for transit planning and research activities. The funds require a 20% local match, which is typically provided by local governments in hard dollars

or in-kind. In addition, other federal or state funding that is not specifically designed for planning activities can be allocated for planning purposes. In those cases, funds such as FTA Section 5304, 5305 (e), 5307 and 5310 will be shown in the budget tables.

- (4) **Surface Transportation Block Grant Program (STBG) Funds** - STBG is a federal-aid highway flexible funding program that funds a broad range of surface transportation capital needs including roads, transit, airport access, vanpool, and bicycle and pedestrian facilities, as well as planning studies and data collection. These funds require a 5.7% match.
- (5) **Highway Safety Improvement Program (HSIP) Funds** - HSIP funds are a federal funding source dedicated to safety improvement projects and planning activities distributed within the State on a competitive basis. The main purpose of the HSIP funding is to achieve a reduction in fatalities and serious injuries on all public roads, including non-State-owned roads and roads on tribal land. The Sun Corridor MPO 2017 Strategic Transportation Safety Plan identified eligible projects where HSIP funding could be utilized. These funds require a 5.7% match; however some projects are 100% funded.
- (6) **Highway User Revenue Funds (HURF) Exchange Program** – The HURF Exchange program enables local governments to exchange STBG federal transportation funding with ADOT for state-generated HURF revenue. HURF exchange funding can be used on eligible design and construction projects.
- (7) **Carry-forward** – Carry forward funds may occur when an MPO does not expend all authorized funds in the current fiscal year. Carry-forward funds are combined with the annual allocation for the new fiscal year to determine the available fund balance for the upcoming year. All carry-forward funds must be identified in the Work Program.
- (8) **In-Kind Contribution** – In-kind contributions may be accepted as the match for federal funds. The Sun Corridor MPO will use in-kind contribution from members and volunteers for match when utilizing STBG, HSIP, SPR, PL or 5303/5304/5305/5305(e), 5307 and 5310 funds.
- (9) **Matching Funds** - In order to secure federal funds, the state and/or local government must place matching funds on a project. The state and local funds must be shown in the Unified Planning Work Program. A detail table of the state/local funds should be included in the budget section of the Unified Planning Work Program. The required percentages of matching amounts may vary according to the Federal fund type. The MPO may receive funds provided by the member agencies to leverage federal planning (PL) funds to pay for MPO staff salaries, benefits, and operating expenses.

Maintain a current up to date inventory of data to support transportation planning activities, to include; HPMS, Functional Classification of roads, Air Quality Standards, updated traffic counts, updated traffic count maps.

#### ***2.1 HPMS:***

The HPMS data will be technically based on the latest available traffic count data and will meet federal and state mandates;

- FY2019 – The Sun Corridor MPO will set aside \$36,000 of STBG funds in FY2019 in order to contract with a consultant to provide selected traffic counts throughout the region, and enter monthly the raw data into the TDMS system in

FY2019. An RFP will be published in the fall of 2018 for a three (3) to five (5) year contract. NTP is anticipated in spring of 2019

**Activities and Outcomes:**

Project/Task	Objective	Outcome
<u>TDMS Data Entry</u>	Due March: Staff will work with members, <u>ADOT</u> and Consultant to ensure all <u>raw traffic</u> counts are uploaded into the <u>TDMS</u> system.	<u>Members will utilize the TDMS system for HPMS upload as well as for transportation planning activities.</u>

### 2.3 Air Quality Standards:

The Sun Corridor MPO is located in PM 2.5 and PM 10 non-attainment area, thereby triggering air quality conformity for the region. All activities will help the MPO region to be compliant with air quality mandates for Pinal County.

As required by the Federal transportation conformity rule (§93.105), the conformity process includes a significant level of cooperative interaction among federal, state, and local agencies. For this air quality conformity analysis, interagency consultation was conducted as required by the Arizona State Implementation Plan (SIP).

Maricopa Association of Governments (MAG) provides services to develop the air-quality conformity analysis that is needed for the non-attainment areas of Pinal County and the Sun Corridor MPO region.

#### Activities and Outcomes:

Project	Objective	Outcome
Maintain a MOU with MAG to ensure Clean Air Act requirements	MAG and the Sun Corridor MPO developed a MOU. The MOU was signed on September 8, 2016.	MAG and the Sun Corridor MPO will coordinate all transportation planning activities in the MAG SCMPO Planning areas in the Pinal County Region.
Interagency Consultation	Sun Corridor MPO has developed a consultation policy, and provides the consultation team with information when a project is changed or new project is added to the Sun Corridor MPO TIP.	Ensuring all interested parties are <u>informed</u> of projects that may affect the air quality conformity analysis.
Coordination Meetings	Sun Corridor MPO and MAG will meet at least quarterly or more often to coordinate AQ activities.	To ensure the Clean Air Act requirements are met within the Sun Corridor MPO region.
<u>Annual Executive Meeting</u>	<u>The executive directors of SCMPO, MAG, ADEQ and ADOT will meet annually to engage in discussion of mutual interests focused on the development of the Unified Planning Work Programs of MAG and SCMPO.</u>	<u>To ensure the Clean Air Act requirements are met within the Sun Corridor MPO region.</u>

The RTP is a long-term blueprint for the region's transportation system. The plan fulfills federal requirements and serves as the region's transportation vision. The Plan is updated every four years (non-attainment area) to ensure that it continues to meet the needs of the region. The RTP was completed and adopted by the Sun Corridor MPO TAC on February 25, 2016 and by the Executive Board on March 15, 2016.

Staff will continue to develop, administer, maintain, and update the regional transportation plan for the region's transportation needs, ensuring it is:

- Technically based on the latest available data on land use, population, demographics, and travel patterns;
- Philosophically based on regional goals and values;
- Financially based on predictable, reliable funding sources;
- Including a transit implementation study for the region;
- Covering a 20 year period with updates every four years;
- Covering long range and short range strategies;

The regional planning task provides for the majority of our planning activities. Staff ensures that the planning function of the MPO is administered, provides reports, meetings, consultation activities, project management, support to other COG/MPOs, and other data and information to our members and the public. Most of Task #7 is accounted for under Task #8.

**Activities and Outcomes:**

Project/Tasks	Objective	Outcome
HSIP Projects	<u>Work with member agencies to submit HSIP applications during the HSIP call for projects to compete for statewide HSIP funds.</u>	Ensure the <u>SCMPO</u> Safety Plan and HSIP projects align with the emphasis areas identified in the AZ 2014 Strategic Highway Safety Plan.
Pinal County Strategic Transportation Safety Plan	Sun Corridor MPO <u>is</u> the lead agency. Partnership between MAG, CAG and Sun Corridor MPO to develop one Safety Plan for all of Pinal County. ### **8.1 HSIP – SCMPO Safety Plan**

The Sun Corridor MPO Safety Plan was completed and approved by the Executive Board on March 14, 2017. MPO Staff anticipated the project would be closed-out in FY 2017. However, it was discovered by the MPO that a payment in the amount of \$8,571.12 was not recorded in the ADOT LPA system and this discrepancy had to be reconciled between AMEC and SCMPO. Once the project contract has been closed-out SCMPO will request the \$12,593.00 be deobligated. This remaining funding will be utilized by the region for HSIP Design/Construction projects.

- Add FY18 HSIP funds in the amount of \$12,593.00. Total amount of funding in the budget to include carry forward from 2017 is \$236,100.

### **8.2 HSIP – Pinal County Safety Plan**

The MPO in partnership with CAG and MAG has funded a Pinal County Regional STSP utilizing Local HSIP funding from all three planning agencies. The project was awarded to Amec Foster Wheeler for a total cost of \$199,992.50. The Sun Corridor MPO is the lead agency with CAG and MAG representatives acting as Technical Advisory members. Pinal County is divided between two MPOs (Sun Corridor MPO and MAG) and one COG (CAG). All three planning agencies have completed Strategic Transportation Safety Plans (STSP) for their respective planning areas. Pinal County requested support for developing a STSP that would combine relevant recommendations from all three safety plans, and also meet current federal requirements for the Pinal County planning area. A cohesive plan for the County will help fill any gaps that may exist in some existing plans, such as the identification of specific regional safety projects for the Pinal County communities of: the City of

Maricopa, Gila River Indian Community, Ak Chin Indian Community, Town of Florence, San Tan Valley, City of Apache Junction and unincorporated areas in Pinal County. We will strive to ensure that the consultant does not duplicate efforts that have already been completed in the MAG, CAG and SCMPD Safety Plans. NTP was issued on November 30, 2017, with an anticipated completion date of January 2019.

### **9. Environmental Overview Task 9**

It is Sun Corridor's goal to comply with guidelines set forth by the Partnership for Sustainable Communities created between the EPA, the U.S. Department of Housing and Urban Development (HUD), and the U.S. Department of Transportation (DOT).

#### ***Activities and Outcomes:***

Project/Tasks	Objective	Outcome
RTP Goals	Obtain goals established in the RTP.	To support access to affordable housing, multi-modal transportation options, and lower transportation costs while protecting the environment in communities within the Sun Corridor MPO region.
Support existing communities	Staff will support communities by attending council meetings or community events where transportation issues are discussed.	Understanding the needs of the communities will help define project needs.
Sustainable Growth and Economic Competitiveness	Staff will work with developers, communities, and others to help develop an economic development plan (within the RTP) which will identify ways to sustain growth in the region.	Clearly identifying best practices for economic growth will help direct the MPO, members, and developers in a way that will benefit the region.

Project/Tasks		Objective						Outcome					
Transit		Staff will work with the transit feasibility study and encourage all member communities to support a regional system.						If supported, a regional transit system will provide transit services to everyone.

### **11. Planning Emphasis Areas (PEA's): Task 11**

The Planning Emphasis Areas (PEAs) are planning areas that FHWA and FTA want to place emphasis on as the MPOs and the State DOTs develop their respective planning

work programs. FHWA and FTA would like for the MPOs to develop and identify work tasks associated with the PEAs in their plans.

The result of the MPO's final Regional Transportation Plan, Safety Plan, and Transit Feasibility Study will help identify specific projects for our construction TIP, economic development, and land use planning. Once these projects or areas are identified, specific planning emphasis tasks will be developed for each project.

The Sun Corridor MPO has developed a separate task (11), which outlines specific tasks or projects we feel identify some planning activities, projects, or tasks associated with the three PEAs.

***Activities and Outcomes:***

Project/Tasks	Objective	Outcome
<b>11.1</b> MAP 21 Implementation	Transition to performance based planning and programming.	The development and implementation of a performance management approach to transportation planning and programming will support the achievement of transportation system performance outcomes.
<b>11.2</b> Models of Regional Planning Coordination	Promote cooperation and coordination across MPO boundaries and across state boundaries where appropriate to ensure a regional approach to transportation planning.	Agreements between MPOs will identify how the planning process and products will be coordinated. Staff will work with PAG, MAG, and CAG on all aspects of planning activities.
<b>11.3</b> Ladders of Opportunity	Access to essential services as part of the transportation planning process. Identify transportation connectivity gaps in access to essential services.	Identify needs for transportation services to essential services and gaps in service. This includes transportation infrastructure as well as public transit.
