SR 189 ADVANCEMENT – FACT SHEET

Mexico is the largest bilateral trading partner with Arizona, accounting for an estimated \$30 million in two-way trade each day. Trade between the US and Mexico is expected to increase dramatically over the next decade, and Arizona is well positioned to become a global leader in international commerce by virtue of our proximity to the 13th largest economy in the world. Supporting facts:

- Manufacturing outsourcing studies and business articles by top consulting firms and business news outlets have recognized Mexico as being the top venue for manufacturing foreign direct investment, ranking above China, Brazil and India.
- Manufacturing currently accounts for approximately 35 percent of Mexico's gross domestic product and Mexico is beginning to overtake China as a manufacturing base for many companies.
- The Sea Port of Guaymas, Sonora , located 260 miles south of Nogales, Arizona, is undergoing a major expansion and when the expansion is complete, Guaymas will be Mexico's 2nd largest seaport by volume with the capacity for more than 30 million tons of cargo annually.

The Mariposa LPOE at Nogales, Arizona, is one of the ten busiest cargo ports along the US-Mexico Border, processing more than 85 percent of the commercial vehicles, and approximately 89% of the trade value crossing the Arizona-Sonora border. The massive explosion in manufacturing that is occurring in Mexico, coupled with the expansion of the Sea Port of Guaymas, Sonora, could triple the current commercial traffic through the Mariposa LPOE and onto State Route 189 over the next decade. Supporting facts:

- According to US Customs and Border Protection, in 2011, the dollar value of trade goods transported through the Mariposa Port of Entry was estimated at \$20-\$25 billion, and in 2014, the value is estimated to be \$30-35 billion, representing a 50 to 75 percent increase in the value of trade over a three year period.
- Data from US Customs and Border Protection adjusted to calendar years shows that the volume of truck traffic has also grown. Truck volumes grew approximately 13 percent from 276,877 trucks in 2009 to 311,669 trucks in 2013.
- With the completion of the \$225 million reconstruction and modernization of the Mariposa LPOE, commercial traffic volumes are expected to climb from the current average of 1,600 trucks per day to more than 3,000 trucks by the peak of produce season in January 2015.
- Of the 2,000 new Customs officers authorized nationwide in the most recent federal budget, 170 of those officers have been allotted to Arizona with 120 of those officers destined for Nogales to staff the improved Mariposa LPOE.

State Route 189 serves as a bypass route for commercial truck traffic to and from Mexico and provides a critical international commerce connection from the Mariposa LPOE to Interstate 19. To effectively enhance and facilitate the flow of international commerce and relieve the current congestion, it is necessary to advance the improvements to State Route 189 leading to and from the Mariposa port of entry to support import and export trade. Supporting facts:

- During the peak of the produce season, SR 189 already experiences considerable traffic congestion. The newly expanded Mariposa LPOE will be fully operational and properly staffed by fall of 2014. This additional traffic on the already congested highway will make SR 189 the state's biggest bottleneck in the flow of cross-border commerce and severely impede Arizona's ability to compete in international trade.
- Arizona's COGs and MPOs have previously passed resolutions to jointly support highway and rail infrastructure that supports our Arizona/Mexico ports of entry and have urged the State Transportation Board to consider the economic development potential of projects in the Arizona Department of Transportation's Long-Range Transportation Plan, and to explore additional funding and creative financing to implement projects such as SR 189 for the economic vitality of Arizona.

To clarify the COG and MPO intent as to "holding harmless" those projects currently programmed in the ADOT Five-Year Transportation Facilities Construction Program – this means we recognize and respect that these projects have been long in the project planning and development process and we do not wish to sacrifice the hard work nor delay the economic benefit their implementation will bring. Rather, it is our intent to find a way to fund the preferred build alternative for SR 189 that is above the line in terms of available funds through the methods described in the Statement of Resolution.

**DRAFT
RESOLUTION OF SUPPORT
FOR ACCELERATION OF THE SR 189 PROJECT**

WHEREAS, the regional planning agencies throughout Arizona, including the Central Arizona Governments (CAG), Central Yavapai Metropolitan Planning Organization (CYMPO), Flagstaff Metropolitan Planning Organization (FMPO), Maricopa Association of Governments (MAG), Northern Arizona Council of Governments (NACOG), Pima Association of Governments (PAG), SouthEastern Arizona Governments Organization (SEAGO), Western Arizona Council of Governments (WACOG), and Yuma Metropolitan Planning Organization (YMPO), and other regional planning agencies and Native American Communities that may wish to join in this effort, hereafter referred to as the Regional Planning Agencies, desire to advocate for advancement of the preferred build alternative of the SR 189 project into the ADOT Five-Year Transportation Facilities Construction Program; and

WHEREAS, Mexico is the largest bilateral trading partner with Arizona, accounting for an estimated \$30 million in two-way trade each day; and

WHEREAS, trade between the US and Mexico is expected to increase dramatically over the next decade, and Arizona is well positioned to become a global leader in international commerce by virtue of our proximity to the 13th largest economy in the world; and

WHEREAS, the Mariposa LPOE at Nogales, Arizona, is one of the ten busiest cargo ports along the US-Mexico Border, processing more than 85 percent of the commercial vehicles, and approximately 89% of the trade value crossing the Arizona-Sonora border; and

WHEREAS, the massive explosion in manufacturing occurring in Mexico, coupled with the expansion of the Sea Port of Guaymas, Sonora, could triple the current commercial traffic through the Mariposa LPOE and onto State Route 189 over the next decade; and

WHEREAS, State Route 189 serves as a bypass route for commercial truck traffic to and from Mexico and provides a critical international commerce connection from the Mariposa LPOE to Interstate 19; and

WHEREAS, to effectively enhance and facilitate the flow of international commerce, it is necessary to advance the improvements to State Route 189 leading to and from the Mariposa port of entry to support import and export trade; and

WHEREAS, the Regional Planning Agencies have previously resolved to jointly support highway and rail infrastructure that supports our Arizona/Mexico ports of entry and urged the State Transportation Board to consider the economic development potential of projects in the Arizona Department of Transportation's Long-Range Transportation Plan, and to explore additional funding and creative financing to implement projects such as SR 189 for the economic vitality of Arizona.

NOW, THEREFORE, BE IT RESOLVED BY THE REGIONAL PLANNING AGENCIES as follows:

That it is the intent of the respective Regional Planning Agencies to work cooperatively to jointly advocate to the Arizona Department of Transportation, the Federal Highway Administration, the State Transportation Board, Arizona's Congressional Delegation, the Arizona Legislature, and other public and private stakeholders, to explore additional funding, creative financing, and additional statutory flexibility in order to advance the construction of the preferred build

alternative for SR 189 into the ADOT Five-Year Transportation Facilities Construction Program while holding harmless those projects currently programmed therein.

PASSED, ADOPTED AND APPROVED BY THE REGIONAL PLANNING AGENCIES OF CENTRAL ARIZONA ASSOCIATION OF GOVERNMENTS, CENTRAL YAVAPAI METROPOLITAN PLANNING ORGANIZATION, FLAGSTAFF METROPOLITAN PLANNING ORGANIZATION, MARICOPA ASSOCIATION OF GOVERNMENTS, NORTHERN ARIZONA ASSOCIATION OF GOVERNMENTS, PIMA ASSOCIATION OF GOVERNMENTS, SOUTHEASTERN ARIZONA GOVERNMENTS ORGANIZATION, WESTERN ARIZONA COUNCIL OF GOVERNMENTS, AND YUMA METROPOLITAN PLANNING ORGANIZATION, ON THE DATES PROVIDED BELOW.

EXECUTIVE BOARD MEETING MEMO

MEMO TO: Sun Corridor MPO EXECUTIVE BOARD
FROM: SHARON MITCHELL, SCMPO Director
DATE: November 18, 2014
SUBJECT: Sun Corridor MPO – Kimley-Horn Professional Services Agreement

The Sun Corridor MPO Technical Advisory Committee (TAC) has unanimously selected Kimley-Horn and Associates to develop our federally required Regional Transportation Plan.

The contract amount is for \$280,000, with a \$20,000 contingency line item fee to cover any additional efforts that may be requested by the Sun Corridor MPO (page 4 of contract).

The Executive Board has received the Professional Services Agreement (separate from the Agenda Packet), for review and consideration for approval.

As the fiscal agent for the Sun Corridor MPO, the City of Casa Grande will be paying the consultant invoices, and will receive reimbursements from ADOT through the Sun Corridor's monthly reimbursement invoicing process.

The anticipated start date (notice to proceed from the Sun Corridor MPO) will be November 19, 2014. The final product will be completed by March, 2016.

Board Action Requested:	<input type="checkbox"/> Information Only	<input checked="" type="checkbox"/> Action Requested Below
A motion to approve the Professional Services Agreement between the Sun Corridor MPO and Kimley-Horn and Associates, in the amount of \$280,000, with a contingency line item amount of \$20,000 (total amount of contract is \$300,000).		

EXECUTIVE BOARD MEETING MEMO

MEMO TO: SCMPO EXECUTIVE BOARD
FROM: SHARON MITCHELL, SCMPO Director
DATE: November 18, 2014
SUBJECT: Sun Corridor MPO Executive Board By-Laws

We were unable to find a signed and executed copy of the Sun Corridor MPO's Executive Board by laws. However, we did find a copy of the September 9, 2013 minutes which stated that the board voted and approved the 'one vote' scenario.

As a result of not having a signed executed copy of the by-laws, and after staff has reviewed the original by-laws, staff is proposing the following options:

1. The Board sign a signature page, and it will be placed with the copy of the original 'one vote' scenario;
Or:
2. The Board sign the original 'one vote' scenario, which was reformatted in a more readable form, but all content remains the same;
Or:
3. The Board approves the suggested amended by-laws, after discussion of the following:
 - Minor formatting, suggested corrections, and grammatical changes;
 - Adding a quorum number of 3;
 - Adding a Management Committee establishment clause;
 - Audit: Discussion on performing an annual audit by a CPA, at a cost of around \$3,000, or just provide an annual financial statement;
 - Keep or eliminate the Audit Committee;
 - Include the final Sun Corridor MPO Boundary Map and updated organizational chart

The by-law options have been provided to the Executive Board separately from the Agenda Packet.

Board Action Requested: ☐ Information Only ☒ Action Requested Below

A motion to approve (just one option):

1. **Signing the original 'one vote' by-laws, which were approved on September 9, 2013**
2. **Sign the original 'one vote' by-laws, which was re-formatted, but retains the same content;**
3. **Approve and sign the amended by-laws, with recommended changes.**
