Project Update

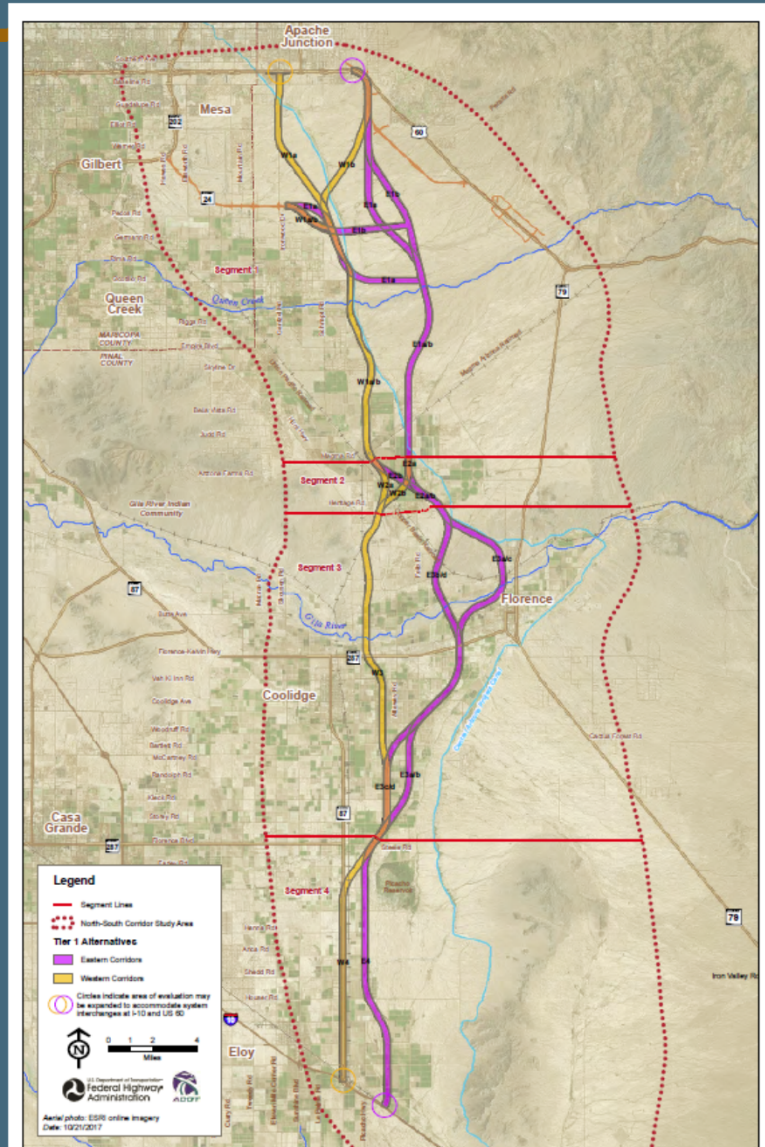

- Tier 1 EIS Process Outcome – identify a preferred Corridor Alternative for the North-South Corridor Study (NSCS), including:
 - Defined corridor between US 60 and I-10 for proposed transportation facility
 - Extension of SR 24 to the North-South corridor
 - Identification of smaller, individual projects for future implementation

Tier 1 EIS Corridor Alternatives

- Alternatives for consideration in the Tier I Draft EIS (handout)
- Refer to [web-map viewer](https://northsouthtier1deis.hdrgateway.com/Home/Map) to “fly-through” corridor

Provide Your Input

There have been several changes to the study since 2014, when the last formal public comment period was held—most notably the switch to a new environmental review process—a Tier 1 Environmental Impact Statement. The Tier 1 EIS will cover the design and construction of the project.

Since 2014, some of the proposed alternative corridors have been modified to avoid sensitive resources. ADOT welcomes your comments on the proposed alternative corridors. Click [here](#) to view the proposed alternative corridors and to provide any comments you may have.

To date, no alternative(s) have entered into the Corridor Selection process. The contact information below provides information on how to provide comments.

In addition to providing comments, you can also provide input on the map. Click on the map to place a pin on the map. Then drag and drop a pin onto the map to provide comments on a specific area of the map, or provide a general comment by clicking on the general comment button.

North South Corridor Study

Help Shape the Future of Arizona's Transportation System!

Thank you for participating in the Arizona North South Corridor Study process by completing this survey. We need your input on the proposed alternative corridor options that are being evaluated.

Since the Alternatives Selection Report was presented late in 2014, some of the alternative corridors have been modified to avoid sensitive resources. ADOT welcomes your comments on the proposed alternative corridors. Click [here](#) to view the proposed alternative corridors and to provide any comments you may have.

Drop a pin (by clicking) to provide comments on a specific area of the map, or provide a general comment by clicking on the general comment button.

Comment Tip

Please tell us why you favor/do not favor a certain alternative corridor option(s) so that we can better understand your views and opinions. We suggest beginning any comments on the alternative corridor option(s) with the phrases below.

- I favor this option because...
- I would like this option if it were improved or changed to...
- I do not favor this option because...

Thank you for your interest in the Arizona North South Corridor Study.
