6. Limited English Proficiency (LEP)

A Limited English Proficiency (LEP) individual is an individual who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English. Arizona's diverse population makes it critically important the Sun Corridor MPO be innovative and proactive in engaging individuals from different cultures, backgrounds and businesses in planning, project development and other program areas.

Laws and Policy

Executive Order (EO) 13166 - *Improving Access to Services for Persons with Limited English Proficiency* is directed at implementing the protections afforded by Title VI of the Civil Rights Act of 1964 and related regulations. Accordingly, it prohibits recipients of Federal financial assistance from discriminating based on national origin by failing to provide meaningful access to services to individuals who are LEP. This protection requires that LEP persons be provided an equal opportunity to benefit from or have access to services that are normally provided in English.

The following matrix illustrates legal and policy considerations:

<u>Title VI of the Civil Rights Act of 1964</u>	<u>Limited English Proficiency Executive Order 13166</u>
• Federal law • Enacted July 2, 1964 • Considers all persons • Contains monitoring and oversight compliance review requirements • Factor criteria is required, no numerical or percentage thresholds • Provides protection on the basis of race, color, and national origin. Focuses on eliminating discrimination in federally-funded programs • Annual Accomplishments and Upcoming Goals Report to FHWA • Provides protection on the bases of race, color, and national origin.	• Federal policy • Signed August 11, 2000 • Considers eligible population • Contains monitoring and oversight requirements • Factor criteria is required, no numerical or percentage thresholds • Provides protection on the basis of national origin; focuses on providing LEP persons' federally- funded programs with meaningful access to services using factor criteria • Annual Accomplishments and Upcoming Goals Report to FHWA • Provides protection on the bases of national origin.

Program Responsibility

Executive Order (EO) 13166 directs recipients of Federal financial assistance to take reasonable steps to provide limited English proficient individuals with meaningful access to their programs, activities and services.

- *Notify LEP customers of the availability of language assistance services*
LEP persons have the right to language assistance at no cost to them in their spoken language. Language identification cards or posting signs in public areas are methods that can be used to provide notice of the service.
- *Translation of vital documents in languages other than English*

It is appropriate to have written materials that have been historically provided in English to applicants, customers and the general public translated into languages that are regularly encountered. The translation of vital documents into languages other than English is particularly important where a significant number or percentage of the customers served and/or eligible to be served have limited English proficiency. Written materials include electronic documents and websites. The Sun Corridor MPO will indicate on its web site and newspaper publications that translation can be provided, with appropriate notice.

Vital Documents are documents that convey information that critically affects the ability of the recipient/customer to make decisions about his/her participation in the program or activity. Classification of a document as “vital,” depends upon the importance of the program, information, encounter, or service involved, and/or the consequence to the LEP community if the information in question is not provided in an accurate or timely manner. Examples of vital documents include, but are not limited to applications, public notices, consent forms, letters containing important information regarding participation in a program, eligibility rules, notices pertaining to the reduction, denial or termination of services or benefits, right to appeal, notices advising of the availability of language assistance and outreach and community education materials. The determination of what documents are considered “vital” is left to the discretion of individual components, which are in the best position to evaluate their circumstances, services, and resources.

Translating documents for LEP to a fourth (4th) grade literacy level ensures the targeted audience understands the information. Community based organizations or focus groups can assist with testing translations for language and literacy level appropriateness.

The Department of Transportation Policy Guidelines give recipients of federal funds substantial flexibility in determining what language assistance is appropriate based upon a local assessment. Due to current financial constraints, translation of large plan documents and maps are considered not warranted at this time. The Sun Corridor MPO will provide translation services, if requested, with 10-days’ notice prior to when the services are needed.

Sun Corridor MPO LEP Four Factor Analysis

Section Five of the US Department of Transportation guidance on LEP requires a four-factor analysis to determine the need for translation services in order to ensure LEP populations are able to receive information about and can participate in the planning process in the language they best understand.

The Sun Corridor MPO will be responsible for conducting a Four Factor Analysis and ensuring compliance with LEP requirements on a project by project basis. The project study area will be analyzed to determine if a LEP population exist, to ensure public outreach materials are made available to the LEP population.

Based on the four—factor analysis, the Sun Corridor MPO will continue to provide public notices in English and Spanish. Translation and interpretation services will be provided through public online translation sites, bilingual community members and, if not cost prohibit and funds permit, through a language interpretation and translation service. The goal of the Sun Corridor MPO is to engage all community members in the planning process.

Factor 1: The number and proportion of LEP persons served or encountered in the eligible service population.

According to the U.S. Census Bureau, 2014-2018, American Community Survey five year estimates, 9.6% or 10,926 of the Sun Corridor MPO area population is considered to be Limited English Proficient. This equates to 5,167 individuals of the population five years of age or older who report speaking English “very well”. The predominate language spoken by these individuals is Spanish. Under the Department of Justice’s (DOJ) Safe Harbor provision, it is necessary to translate materials when five percent or 1,000 persons, whichever is less, speak English less than “very well”.

Factor 2: The Frequency in which LEP Persons Encounter Sun Corridor MPO Programs

Some government offices provide materials in English and Spanish but, because the general public comes in contact with the Sun Corridor MPO on an infrequent basis, only public notices and certain vital materials are available in both English and Spanish.

Factor 3: The Importance of Services Provided by Sun Corridor MPO Programs

Transportation planning is an important facet of the community and affects all residents. All residents are encouraged to participate in public meetings.

Factor 4: Available resources, including language assistance services varying from limited to wide ranging with varying costs.

Due to fiscal constraints and limited resources and small staff, interpretation and translation services are not available without advance notice; however, public notices are available in English and Spanish.

7. Program Areas

Regional Transportation Planning

- o Long Range Transportation Plan
- o Transportation Improvement Program (TIP)
- o Air Quality Conformity
- o Planning Studies (e.g. Transit, Safety, etc.)
- o Public Participation Plan (PPP)
- o Human Services Transportation Coordination Plan

The Title VI Coordinator provides oversight to the program areas. Annually, the Title VI Coordinator will report in the Goals and Accomplishment Report data collected throughout the year and explain the steps for each program area in order to comply with Title VI Program requirements.

The Title VI Coordinator is responsible for overseeing the preparation and execution of all planning study contracts for consultants to ensure Title VI compliance.

FHWA Funded Contracts will be reviewed for the following:

- Include the most recently signed assurances;
- Include subrecipient signed assurances; and
- Ensure the consultant is complying with Title VI Assurances.

The following matrix outlines the program areas, general description of each program, and review procedures:

Program Area	General Description	Program Review Procedures
Regional Transportation Planning: Regional Transportation Plan Transportation Improvement Program Air Quality Conformity Other Planning Studies (e.g. transit, safety, etc.)	The RTP addresses the mobility needs of people of all ages, incomes and abilities. It identifies the desired vision for the region's transportation system in which funding is unconstrained. The fiscally constrained RTP addresses federal requirements for the process of developing, and the content to be included within, a long-range transportation plan. Specifically, it defines transportation elements and services to be provided over the next 20 years based on reasonably expected revenues. Transportation Improvement Program (TIP) identifies all federally funded transportation projects to be completed in the Denver region over a four-year period. Under the Clean Air Act, SCMPO has responsibilities to ensure its transportation plans and programs support air quality goals and contribute to meeting air quality standards.	All Board and committee meetings are open to the public. Public comment is always included as an agenda item for all Executive Board and Technical Advisory Committee meetings. Self-Identification Surveys in both English and Spanish are made available at each Executive Board and Technical Advisory Committee meeting. The data collected from these surveys allows for the analysis to ensure that all persons have an equal opportunity to benefit from or have access to the activities of the MPO and to avoid any disproportionate impacts from those activities. All planning studies are made available to the public for a minimum of 30-day review and comment period. As part of the public outreach process, surveys are made available to the public either on-line and/or in hard copy to collect a variety of data for planning studies. Statistical data such as race, color, and national origin are captured during these public surveys. The data collected from these surveys allows for the analysis to determine if Title VI neighborhoods are receiving equal benefit and not a disproportionate burden. The Limited English Proficiency (LEP) Four Factor Analyses is conducted on the planning study area to determine if study documents need to be provided in both English and Spanish.
Program Area	General Description	Program Review Procedures

Public Participation Plan	The purpose of a public participation plan is to ensure a proactive public involvement procedure that allows the public to be involved in all phases of the planning process by providing complete information, timely public notice, opportunities for making comments, full access to key decisions, and early and continuing involvement in developing transportation plans and programs.	The Public Participation Plan is made available to the public for a 45-day comment/review period. Public Notices are made available in both English and Spanish. Elderly persons or zero vehicle households who are not able to attend meetings may make a request for the information at Sun Corridor MPO offices for delivery of materials to their homes. Public meetings are held in facilities that are compliant with the Americans with Disabilities Act (ADA); and, arrange for reasonable accessibility and accommodation to persons with disabilities. Further, to provide equally effective communication, Sun Corridor MPO will make due preparation, when appropriate, for persons requiring assistance, such as the hearing or visually impaired, upon request.
Program Area	General Description	Program Review Procedures
Human Services Transportation Coordination Plan	This plan identifies the transportation needs of individuals with disabilities, older adults and people with low incomes, provide strategies from meeting these needs and prioritize transportation services for funding and implementation.	Demographic information from the US Census is used to provide a better understanding and a more complete picture of the population in the CAG/SCMPO Region, and in particular persons with disabilities, older adults, and low in-come individuals and households. Coordination with 5310 and 5311 transit agencies for Title VI outreach during any transit-oriented planning activities. Rely on transit agencies for on-board surveys on ridership demographics. Data collected from the survey determines transit needs/service gaps and to establish priorities. The Plan is made available to the public for a minimum of 30-day review and comment period.

8. Data Collection and Analysis

The Sun Corridor MPO is required by federal regulations to collect statistical data on the race, color, and national origin of participants in its programs. Data is collected from the U.S. Census Bureau, Executive Board and Technical Advisory Committee meetings, public meetings, planning study surveys, and procurement contracts. Data collection efforts

specific to each program area are described on an annual basis in the Sun Corridor MPO Title VI Implementation Plan. Annually, the data collection findings from each program area are reported in the Sun Corridor MPO Goals and Accomplishment Report. The data will be maintained for the purpose of planning projects and programs. Demographic Maps can be viewed as an attachment (Exhibit “C”) of this document.

Executive Board & Technical Advisory Committee Meetings – Self-Identification Surveys in both English and Spanish are made available at each Executive Board and Technical Advisory Committee meeting. The data collected from these surveys allows for the analysis to ensure that all persons have an equal opportunity to benefit from or have access to the activities of the MPO and to avoid any disproportionate impacts from those activities.

Public Meetings - Self-Identification Surveys in both English and Spanish are made available at each Public meeting. Public involvement materials including meeting notices, project fact sheets and/or flyers and other documents are made available in both English and Spanish to ensure LEP requirements are being met. The data collected from the surveys allows for the analysis to determine if Title VI neighborhoods are receiving equal benefit and not a disproportionate burden.

Planning Studies – As part of the public outreach process, surveys are made available to the public either on-line and/or in hard copy to collect a variety of data for planning studies. Statistical data such as race, color, and national origin are captured during these surveys. The data collected from these surveys allows for the analysis to determine if Title VI neighborhoods are receiving equal benefit and not a disproportionate burden. The Limited English Proficiency (LEP) Four Factor Analyses is conducted on the planning study area to determine if study documents need to be provided in both English and Spanish.

Procurement – AZ UTRACS is utilized to collect race and sex of all bidders and contract awardees, to ensure DBE compliance.

9. Public Participation Process – Public Participation Plan (PPP)

The Sun Corridor MPO operates under a comprehensive Public Participation Plan (PPP). The Plan explains the agency goals for public participation, governing structure, and composition of boards, procedures for board meetings, program areas, interagency coordination, and specific procedures for public participation in the planning process, public engagement and notification methods. The full plan is available at www.scmpo.org.

Commitment to Public Involvement

The Public Participation Plan (PPP) contains background material, guidelines, and commitments that the Sun Corridor MPO is undertaking to incorporate an effective public process into future plans, projects, and programs. Specifically, the Sun Corridor MPO is committed to:

- Inclusive and meaningful public involvement.
- Open and honest communications with all individuals and entities.
- Timely public notice.
- Full public access to information and key decisions.
- Creating a sense of shared responsibility and ownership for regional transportation/congestion problems and a shared sense of pride in the development of solutions to those problems.
- Helping form partnerships between member entities, and the private and public sectors to plan and implement transportation/congestion solutions.

- Establishing policies and prioritizing needs based on valid data and using objective, fair and consistent processes.
- Providing information and gathering input so that decision makers will be able to make informed decisions.

Public Meetings

The Sun Corridor MPO's Executive Board meets the 2nd Tuesday of every other month. The Sun Corridor MPO's Technical Advisory Committee meets the 4th Thursday of every other month. The upcoming Annual Meeting Schedule is published on the Sun Corridor MPO website in November of each year. Agendas for each meeting are posted at Sun Corridor MPO office, 211 N. Florence St., Ste. 103, Casa Grande, Arizona and online at: www.scmpo.org a minimum of 5 days in advance of each meeting.

The following statement is conveyed on each meeting schedule as well as on each agenda, *"The Sun Corridor MPO endeavors to make all public meetings accessible to persons with disabilities. Please contact Irene Higgs at (520) 705-5143 or ihiggs@scmpo.org, 72 hours prior to the meeting to request a reasonable accommodation to participate in this meeting.* To date, no request has been made.

Public participation is promoted at each meeting and our agendas give opportunity to call upon the public to make comment on any unrelated agenda topic as well as during discussion on an agenda topic.

In the event of a cancellation, notice will be posted on web site a minimum of 48 hours in advance as well as email notification sent to regular meeting participants.

In an effort to keep the Title VI Plan a reasonable size, the section of the PPP specifically relevant to Title VI is included below.

Excerpts from the Public Participation Plan

Public participation implies an open process. This means that anyone who is potentially affected, or is just interested in the process, is welcome to participate.

Just opening the process to the public is not enough. There are numerous populations that are not likely to get involved unless a special effort is made to reach out to them. In this Plan, groups that need a more focused effort to get involved are referred to as "underserved populations". These include, but are not limited to:

- Minority (Hispanic and/or non-white) community members;
- Low-Income community members;
- Physically and mentally challenged community members;

- People who rely on alternative transportation;
- People with limited English proficiency;
- Aging populations.

The Sun Corridor MPO will make every effort to hold public meetings in facilities that are compliant with the Americans with Disabilities Act (ADA); and, arrange for reasonable accessibility and accommodation to persons with disabilities. Further, to provide equally effective communication, Sun Corridor MPO will make do preparation, when appropriate, for persons requiring assistance, such as the hearing or visually impaired, upon request.

The Sun Corridor MPO will assist persons with limited English proficiency (LEP) to participate in the transportation planning process. Staff will make every effort to provide Spanish translators and document translation, where feasible, upon request. Elderly persons or zero vehicle households who are not able to attend meetings may make a request for the information at Sun Corridor MPO offices for delivery of materials to their homes. Sun Corridor MPO staff, coordinating availability, is willing to go speak to groups to eliminate participation barriers and involve citizens in the transportation process. By making a reasonable extra effort to include these populations, the Sun Corridor MPO hopes to ensure that the interests and input of all residents are given equal consideration.

The Sun Corridor MPO has provided other means of outreach other than from the traditional methods. One method used was providing a survey in English and in Spanish to seek input on a transit study, with a chance to win a Gift Card. Surveys were available on-line and provided to the local agencies and to specific site locations that were identified having heavy foot traffic such as community centers, senior centers, libraries, after school programs, and schools. Other untraditional methods will be used pending the nature of the project to engage LEP persons and environmental justice populations.

Listed below are various outreach processes that may be used by the Sun Corridor MPO to ensure Title VI, Limited English Proficiency (LEP) persons and Environmental Justice (EJ) populations have access to participate in Sun Corridor MPO transportation decision-making process:

- Translate outreach materials based on a LEP Four-Factor analysis conducted on a project-by-project basis.
- Advertise meetings, public notices, and other materials in the Tri-Valley newspapers, SCMPO and local agency websites, and other high traffic locations frequented by the public.

- Advance demographic research of potentially impacted communities for transportation-related study projects to determine the level and targeted outreach tools needed for public involvement based on LEP, EJ and Title VI Data collection.
- Include Spanish text on Sun Corridor MPO materials to the public notifying them of the opportunity to request language services, if needed.
- Forming partnerships between member entities, public and private sectors.
- Consider the proximity to public transportation routes when selecting a meeting location.
- Schedule public meetings at the appropriate time of day based on community assessments.
- Use of Title VI Self-identification cards at meetings.
- Use of various types of modes to communicate Sun Corridor MPO meetings.
