Notes	<p>Apportionments represent the amount of federal funding based on formula. Apportionments generally exceed obligation authority (OA), resulting in excess apportionments that cannot be obligated. Over the life of a multi-year federal transportation program authorization, apportionments may accumulate but cannot be utilized unless Congress approves a matching amount of OA. There is no guarantee Congress will provide the OA necessary to fully utilize apportionments.</p> <p>Obligation Authority (OA) is the amount of authorized apportionments which Congress allows states to obligated in an individual year. This is the amount which FHWA will reimburse. Effective</p>

The Honorable Peter P.M. Buttigieg
Secretary
United States Department of Transportation
1200 New Jersey Avenue, SE
Washington, D.C. 20590

Dear Secretary Buttigieg:

The Sun Corridor Metropolitan Planning Organization is proud to submit this letter supporting the I-10/Kortsen Traffic Interchange in Casa Grande, Arizona, for a 2022 Rebuilding American Infrastructure with Sustainability and Equity (RAISE) grant. This project will improve transportation access for newly emerging industries in south-central **Arizona's Gateway to the Electric Vehicle Future**. Lucid Motors has constructed a plant that will produce tens of thousands of electric vehicles annually in Casa Grande, while Nikola will do the same for electric trucks in neighboring Coolidge.

Lucid and Nikola selected south-central Arizona to help shape the electric vehicle future due to access to transportation infrastructure including; Interstate Highways 8 and 10, nearby rail service to obtain parts made in Mexico, and convenient access to Phoenix Sky Harbor International Airport. The location is logical for resiliency-related reasons as well, being safe from most climate-related disasters.

While the proximity of Interstate Highways and railroad lines is ideal, additional help is needed to ensure that the local roadway system can handle the transportation demands that will quickly increase due to the recently opened Lucid plant, the Nikola plant that is under construction, and many supporting businesses that will soon be opening in the region. Adding a new I-10 interchange at Kortsen Road will help to balance out traffic on the regional arterial street system to avoid overloading roadways that do have access, specifically Florence Boulevard and McCartney Road.

In addition to creating jobs in the community, the project will add a sidewalk and bike lanes to accommodate non-motorized transportation across I-10. Casa Grande's voter-approved June 2021 Comprehensive Plan update emphasizes alternative transportation modes.

There is strong support for this project by many levels of government and a wide variety of stakeholder agencies, but the most crucial support comes from the people themselves. In November 2017, the voters of Pinal County approved a half-cent sales tax to pay for specified elements of the Pinal Regional Transportation Plan, including substantial funding for this interchange and its connecting roadways.

In summary, the I-10/Kortsen Road Traffic Interchange project will result in significant progress towards meeting local, regional and national goals for advancing economic progress sustainably and equitably. We highly recommend this grant application for your approval. If I can provide further assistance in support of the application, please contact me at mpowell@eloyaz.gov or 520.466.3161.

Sincerely,

Micah Powell, Chairman
Sun Corridor MPO Executive Board

The Honorable Pete Buttigieg
Secretary of Transportation
U.S. Department of Transportation
1200 New Jersey Avenue, SE
Washington, DC 20590

Dear Secretary Buttigieg,

This letter is presented to express our strong support for the RAISE grant application for the proposed Central Arizona Parkway in Pinal County, Arizona.

The Central Arizona Parkway will be a new high-capacity roadway facility that will connect the region's growing communities and industrial developments to the existing freeway network, including the newly extended State Route (SR) 24, SR 202, Interstate 10, and United States Route (US) 60. The first phase of the parkway is four miles long and will connect the SR 24 extension to Ocotillo Road. The parkway will ultimately extend another nine miles south to Arizona Farms Road and the future North-South Freeway.

The Central Arizona Parkway is located within the Sun Corridor region, a linear area of high population density anchored by Tucson and Phoenix. More than 80 percent (6 million) of Arizonans currently live within that "megaregion," which is expected to grow to nearly 9 million people by 2040. The Central Arizona Parkway will improve the regional connectivity and congestion of the existing transportation network within central Arizona and benefit the growing communities in Pinal County.

The Sun Corridor Metropolitan Planning Organization (MPO), located in Pinal County, was formed after the 2010 Census to provide transportation planning services to the communities of Casa Grande, Coolidge, Eloy, and rural portions of Pinal County. The Sun Corridor MPO, which covers 1,155 square miles and includes an estimated population of nearly 120,000, is a strategically located regional planning agency in which economic growth is expected to thrive. Our organization recognizes the strong economic growth opportunity and congestion relief that the Central Arizona Parkway would bring to our region.

Any consideration you might give to the application of Pinal County and the Central Arizona Parkway would be greatly appreciated.

Sincerely,

A handwritten signature in blue ink that reads "Irene Higgs".

MEMO TO: SUN CORRIDOR MPO TECHNICAL ADVISORY COMMITTEE
FROM: Jason Hafner, Sun Corridor MPO Deputy Director
DATE: April 28, 2022
SUBJECT: Charter for Performance Measure, Target Setting and Data Sharing

Section IV.h of the Charter for Performance Measure, Target Setting and Data Sharing signed by Sun Corridor MPO and ADOT in July 2018 states that:

SCMPO will annually complete an evaluation to determine if a transportation provider has been established. Once a transportation provider has been established, the PARTIES will execute a new Charter with the transportation provider to specify that the transportation provider will establish transit asset management, safety and other required transit performance targets and share established targets with the PARTIES; will share with the PARTIES data obtained or collected in support of performance measure tracking upon request; will provide an outline of the adoption process to the PARTIES once established; and will report performance targets to FTA.

The City of Casa Grande has been designated by FTA as a direct recipient of 5307 funding and therefore it is necessary to execute a new Charter, as outlined in section IV.h of the current Charter.

The purpose of this Charter between Sun Corridor MPO, Casa Grande and ADOT is to jointly agree upon and develop specific written provisions for cooperatively developing and sharing information related to transportation performance data, the establishment of performance targets, the reporting of performance targets, the reporting of performance measures to be used in tracking progress toward attainment of critical outcomes for the Sun Corridor MPO region, and the collection of data for the State management plan for the National Highway System (NHS).

As outlined in the agreement, Sun Corridor MPO will:

- Establish necessary transportation performance targets or adopt ADOT performance targets.
- Share with ADOT data obtained in support of the performance measures.
- Approve the established targets through the Technical Advisory Committee and Executive Board.
- Adopt transit performance targets established by the Casa Grande Public Transportation Authority (CGPTA).

-
- Adopt ADOT transit performance targets for the rural areas of the SCMPO.
 - Report performance targets to FHWA and FTA (if necessary).
 - Prepare a System Performance Report as part of the RTP update.
 - Include a description of anticipated impact of projects upon the performance targets in the TIP.
 - Include a linkage from investment priorities in the TIP.

SUBJECT: FY22/23 Surface Transportation Block Grant Program Loan

Regional Funding – Sun Corridor MPO staff anticipates an excess of Surface Transportation Block Grant Program (STBG) funds in the amount of \$36,577 in Fiscal Year (FY) 2022. These funds will be applied to the Pinal County I-10 Detour Plan, pending TAC and Executive Board approval.

Sun Corridor MPO staff is currently working with the Arizona Department of Transportation (ADOT) Financial Management Services (FMS) to work out the details of the loan.

- If approved, SCMPO would provide ADOT with \$36,577 of STBG funds in FY22. ADOT would provide SCMPO with \$36,577 of STBG funds in FY23.

Once all FY22 closeout funds are identified, Sun Corridor MPO staff will finalize the amount of funds to be included in the loan, complete the loan paperwork, and submit to ADOT for final approval.

The Sun Corridor MPO staff recommends that a loan be approved between Sun Corridor MPO and ADOT for FY22 STBG funds.

Email completed form to Arizona Department of Transportation Financial Management Services at mprogramfinance@azdot.gov. Approved transfer/loan requests must be received by June 15th each year; allow two weeks for approval. Transfers generally will appear on the next ledger, depending on the date of receipt.

This request will be processed based on the amount of apportionments and obligation authority available to the loaning/transferring agency at the time of receipt, which may be different than the amount shown on the most recent ledger. Loans are to be repaid; transfers will not be repaid.

Loans of apportionments and/or obligation authority to ADOT - these loans are not guaranteed; are capped at a total, maximum of \$10 million annually; are limited to greater Arizona STP projects in a TIP which exceed the region's available STP allocation; will be on a first come, first served basis if available; require advance approval. Every effort should be made to reprogram federal funds on projects ready to authorize by June 30th annually or to loan to other regional entities before approaching ADOT about a loan. Loans to ADOT must be approved and executed by March 31st annually.

Loans/transfers from MAG or PAG to Greater Arizona have certain restrictions, depending on the type of funding and population in the area of the project to which the loan is related. Contact Financial Management Services at 602-712-7441 for further information.
