Notes	<b>Apportionments</b> represent the amount of federal funding based on formula. Apportionments generally exceed obligation authority (OA), resulting in excess apportionments that cannot be obligated. Over the life of a multi-year federal transportation program authorization, apportionments may accumulate but cannot be utilized unless Congress approves a matching amount of OA. There is no guarantee Congress will provide the OA necessary to fully utilize apportionments.								
	<b>Obligation Authority (OA)</b> is the amount of authorized apportionments which Congress allows states to obligated in an individual year. This is the amount which FHWA will reimburse. The OA to apportionments is estimated at 90% changed from 94.90%.

**MEMO TO:** SCMPO TECHNICAL ADVISORY COMMITTEE  
**FROM:** Jason Bottjen, SCMPO Deputy Director  
**DATE:** August 25, 2022  
**SUBJECT:** Arizona Corporation Commission Annual Report

Article 15 of the Arizona Constitution establishes the Arizona Corporation Commission. Arizona is one of only seven States that have constitutionally formed Commissions. The Corporations Division approves for filing all articles of incorporation for Arizona businesses; all articles of organization for limited liability companies; grants authority to foreign corporations to transact business in this state; propounds interrogatories when necessary to determine a company's lawful purpose; and revokes the corporate charters of those corporations which choose to not comply with Arizona law. The Division collects from every corporation an annual report which reflects its current status, business, and financial condition; maintains this information in a format conducive to public access; responds to public questions concerning Arizona businesses and corporation law; and responds to the needs of the business sector by disseminating whatever information is mission-critical to them in the most expedient and cost-effective manner possible.

The Arizona Corporation Commission requires that the Annual Report is completed and submitted by August 20 each year. The Report requests an update of physical location, statutory agent, capitalization and officers. Failure to submit the requested report will result in a month penalty until the MPO is ultimately administratively dissolved by the Arizona Corporation Commission.

Jill Dusenberry  
Transit Group Manager  
ADOT Multimodal Planning Division  
1611 W. Jackson, MD310B  
Phoenix, AZ 85007

Dear Ms. Dusenberry,

On behalf of the Sun Corridor Metropolitan Planning Organization (MPO), I fully support the application from the City of Coolidge for the Arizona Department of Transportation FFY 2022 Section 5307/5339 grant funds. The capital projects included in Coolidge's request will improve Coolidge's services and sustain much-needed mobility in Central Arizona.

Coolidge's Cotton Express and CART services are the primary public transit services in Pinal County, serving the communities of Casa Grande, Coolidge, Eloy and Florence. These transit services provide key transportation to area employees, student, and numerous other residents who utilize the services to visit grocery stores, college classes, medical services, and countless other activities they may be unable to access without Coolidge's system in place. Maintaining a state of good repair with key equipment allows Coolidge to continue to provide its services safely and effectively moving forward.

I would like to thank you in advance for considering the City of Coolidge's application. If you have any questions or require additional information, please don't hesitate to call me at 520.705.5143.

Sincerely,

Irene Higgs  
Sun Corridor MPO Executive Director

**SUBJECT:** Recommend approval to advertise the 2022 Winter Air Quality  
Conformity project list and Conformity Analysis for 30-day public

All Sun Corridor MPO member agencies have been consulted regarding projects to be incorporated into the draft Air Quality project list, including locally and privately funded projects.

The 30-day public review and comment period is tentatively scheduled for November 8, 2022 through December 8, 2022.

**MEMO TO:** SUN CORRIDOR MPO TECHNICAL ADVISORY COMMITTEE  
**FROM:** Jason Bottjen, SCMPO Deputy Director  
**DATE:** August 25, 2022  
**SUBJECT:** Recommend Approval to Advertise RFP, Select Consultant and Award Contract for Sun Corridor MPO Regional Transportation Plan 2050

Metropolitan Planning Organizations (MPOs) are required to prepare Regional Transportation Plans (RTPs). RTPs are developed in cooperation with FHWA, FTA, ADOT, project stakeholders, and the traveling public. The RTP describes how federal funding for transportation improvements will be invested in the region over the next 20 years. The Sun Corridor MPO is located in the Pinal County nonattainment area for PM-10 and PM-2.5 and therefore an RTP must be completed every four years.

The Scope of Work for this Request for Proposals (RFP) is to update the information in the Sun Corridor MPO Regional Transportation Plan (RTP) 2040. The update will include new Federal requirements outlined in the Infrastructure Investment and Jobs Act (IIJA), the funding and authorization bill that governs the United States federal surface transportation spending. The RTP 2050 will update and include all new Performance Measures and Targets, new FHWA/FTA Planning Emphasis Areas, identify investment strategies, review and adjust the Sun Corridor MPO project selection and application process, and update regional goals and measurements, etc.

The proposed procurement timeline and process is based on the best available information. Dates marked with asterisks (\*\*) are subject to change as more information becomes available.

## RESOLUTION NO. 2022-02

### **RESOLUTION OF THE SUN CORRIDOR METROPOLITAN PLANNING ORGANIZATION (MPO), PINAL COUNTY, ARIZONA URGING STATE LAWMAKERS TO APPROPRIATE FUNDING FOR THE PROJECTS SELECTED FOR THE RURAL TRANSPORTATION ADVOCACY COUNCIL'S (RTAC) GREATER ARIZONA PRIORITY PROJECT LIST.**

**WHEREAS**, the quality of Arizona's transportation infrastructure is vital to public safety, economic prosperity, environmental health, quality of life and cost of living;

**WHEREAS**, ADOT's current long range plan estimates the state highway system's unfunded needs at \$30.5 billion, equating to only 43% of the needs being met;

**WHEREAS**, Arizona's local road networks are facing comparable shortfalls, estimated at \$2.2 billion just for the maintenance of existing county roads;

**WHEREAS**, counties & municipalities are predominantly dependent on state revenue sharing for the upkeep of local roads in lieu of local fuel and vehicle tax authority;

**WHEREAS**, fuel taxes which are the predominant state revenue source for both state highways and local roads, have not been adjusted in over 30 years, dramatically reducing their impact due to inflation, rising construction costs, continually improving vehicle fuel efficiencies, and the development of alternative fuel vehicles;

**WHEREAS**, in recent years, the Arizona Legislature has increased transportation investment through earmarking one-time State General Fund revenues for various projects, a process which has proven to be politically viable at least partially due to the specificity of the use of the funding;

**WHEREAS**, earmarking funded critically needed highway and road projects but bypasses the established programming processes which prioritize needs through extensive analysis and public participation, processes that are increasingly important due to the magnitude of the under-investment levels and the need to maximize the best use of available funding;

**WHEREAS**, the Greater Arizona transportation planning organizations (COG/MPOs) have the ability to provide a compromise approach by developing a list of specific projects for earmarking but those that have been vetted and determined to be the top priorities for each Greater Arizona region.

**NOW, THEREFORE, BE IT RESOLVED**, the Sun Corridor Metropolitan Planning Organization urges state lawmakers to enact legislation appropriating State General Fund revenues to transportation infrastructure and to provide greater deference to the RTAC Rural Regional Priority Project List including both state highway and local road projects as selected by the State's regional transportation planning organizations.

**APPROVED AND ADOPTED** this 13th day of September 2022.

**MEMO TO:** SCMPO TECHNICAL ADVISORY COMMITTEE

**FROM:** Jason Bottjen, Sun Corridor MPO Deputy Director

**DATE:** August 25, 2022

**SUBJECT:** Recommended Approval of the Regional Transportation Advocacy Council (RTAC) Regional Project List

The Regional Transportation Advocacy Council (RTAC) has identified project earmarking as a viable option for securing infrastructure funding from the state legislature. Therefore, RTAC is proposing a hybrid approach whereby the regional planning agencies of Greater Arizona each determine a list of prioritized projects. These individual lists would then be consolidated and presented to the State legislature at the next legislative session. This allows the legislators the opportunity to continue advocating for specific projects, but listed projects would reflect regional priorities of Greater Arizona.

The RTAC Management Committee agreed that each COG/MPO would develop project lists of \$100M, \$200M and \$300M for consideration for next year by the Legislature. The RTAC Management Committee will determine which funding scenario to present to the Legislature. The funding scenario allocations would be proportional to population. Based on this decision the currently proposed Sun Corridor MPO amount is as follows:

RTAC Project Priority Funding Scenarios	SCMPO Distribution by Population	Member Agency Distribution
\$100M	\$7,149,336	\$1,787,334
\$200M	\$14,298,671	\$3,574,668
\$300M	\$21,448,007	\$5,362,002

It was determined by the Sun Corridor MPO TAC to evenly distribute these funds to each member agency. However, partnerships/regional coordination for larger regional projects was strongly encouraged. It should be noted that these are State funds, and therefore would not come with a local match requirement and would not have the same restrictions as many Federal fund sources. This effort does not preclude any local jurisdiction from pursuing separate earmarks for other regionally significant projects.

The Sun Corridor MPO Staff recommends approval of the SCMPO Regional Project list and submit to the Executive Board for review and approval.
