The current FRA Step 1 initiation package—comprising the scope of work, schedule, and budget—has cleared FRA management review and is currently under legal review. This

process is expected to take a few weeks. Once approved, ADOT and FRA will proceed to finalize the Step 2 grant agreement to formally launch the study. While the exact timeline for approval is still being determined, a tentative start date in summer 2025 is anticipated.

The next executive leadership meeting will be held Monday April 28th including members from SCMPO, MAG, and PAG to discuss the latest status of the project while addressing any concerns and comments.

**MEMO TO:** SUN CORRIDOR MPO TECHNICAL ADVISORY COMMITTEE

**FROM:** Jason Bottjen, Deputy Director

**DATE:** June 5, 2025

**SUBJECT:** 10.2 Recommend approval to advertise the December 2025 Air Quality Conformity project list and Conformity Analysis for 30-day public review and comment period

The 1990 Federal Clean Air Act requires that regional transportation plans and programs be in conformance with all applicable air quality plans. To comply with this requirement, an air quality conformity analysis of the FY2025-2029 Transportation Improvement Program and Regional Transportation Plan 2050 Update needs to be completed.

All Sun Corridor MPO member agencies have been consulted regarding projects to be incorporated into the draft Air Quality project list, including locally and privately funded projects.

The 30-day public review and comment period is tentatively scheduled for September 11, 2025 through October 12, 2025.

Sun Corridor MPO staff recommends approval to advertise the December 2025 Air Quality Conformity project list and Conformity Analysis for 30-day public review and comment period.

**DATE:** June 5, 2025

**SUBJECT:** **11.0 Recommend Approval of the New Finding of Conformity for the Draft FY2025-2029 Sun Corridor MPO Transportation Improvement Program and the Regional Transportation Plan 2050 Update.**

On April 24, 2025, Sun Corridor MPO staff sent out the Consultation on the Conformity Assessment for the Draft FY 2025-2029 Sun Corridor MPO Transportation Improvement Program (TIP) and Regional Transportation Plan 2050 Update (RTP) for public review. The Draft FY 2025-2029 TIP and Regional Transportation Plan 2050 Update includes various project changes that require a new conformity determination. The project modifications impact the modeling assumptions used in the most recent conformity analysis and a new regional emissions analysis for the Pinal County PM-10 and PM-2.5 nonattainment areas was conducted. The result of the analysis supports a finding that the Draft FY 2025-2029 TIP and Regional Transportation Plan 2050 Update meet transportation conformity requirements for PM-10 and PM-2.5 in the Pinal County nonattainment areas.

On May 24, 2025, a 30-day agency and public review period ended on the conformity analysis, Draft FY 2025-2029 TIP and Regional Transportation Plan 2050 Update. No public comments were received.

The Sun Corridor MPO staff recommends the approval of the new Finding of Conformity for the Draft FY 2025-2029 Sun Corridor MPO Transportation Improvement Program and the Regional Transportation Plan 2050.

## INTRODUCTION

In 2010, the United States Census reflected that the City of Casa Grande population surpassed the 50,000 threshold; thus, requiring the establishment of a Metropolitan Planning Organization (MPO).

The Sun Corridor MPO encompasses 1,155 square miles and provides transportation planning services to the cities of Casa Grande, Coolidge, Eloy, and the small urban and rural portions of Pinal County. As of the 2020 census, the population of the Sun Corridor MPO is approximately 112,807.

### Requirements

The Transportation Improvement Program (TIP) is a multi-year (4 – 10 years) program of transportation projects that is consistent with and implements the goals and objectives described in the Regional Transportation Plan. The TIP is required to be prepared in complete detail identifying projects, assign projects in appropriate periods, and to identify costs associated with each project as well as funding source. All federally-funded transportation projects within the Sun Corridor MPO planning boundary must be programmed on the Sun Corridor TIP. All regionally significant transportation projects that are local or privately (developer) funded which impact air quality conformity are also required to be programmed in the TIP. The TIP needs to be reviewed annually and revised as necessary. Years 1 – 4 must be fiscally constrained.

### Air Quality

The Sun Corridor MPO includes portions of the West Pinal PM10 Serious Nonattainment Area and West Central Pinal PM2.5 Nonattainment Area. Consequently, transportation conformity is required to be demonstrated for both nonattainment areas by the Sun Corridor MPO. Metropolitan transportation plans, programs, and projects in the nonattainment areas must satisfy the requirements of the federal transportation conformity rule.

Prior to TIP amendment approval, the Sun Corridor MPO conducts consultation with interagency partners including resource and environmental agencies.

### Executive Board

The Executive Board is the policy body of the Sun Corridor MPO coordinating the transportation planning activities. The Executive Board consists of elected officials from the cities of Casa Grande (1), Coolidge (1), Eloy (1), and Pinal County (1); a member from Arizona Department of Transportation (ADOT) State Transportation Board (appointed by the Governor of the State of Arizona) and one ex-officio non-voting representative of Federal Highways Administration.

## Technical Advisory Committee (TAC)

The primary responsibility of the TAC is to perform technical reviews and analysis regarding project related activity in the TIP and make recommendations to the Executive Board. The TAC consists of five (5) technical and managerial representatives from: City of Casa Grande (1); City of Coolidge (1); City of Eloy (1); Pinal County (1); and ADOT (1).

## Geographic Area

The Sun Corridor MPO is responsible for the continuous, cooperative, and comprehensive transportation planning process for the cities of Casa Grande, Coolidge, Eloy and rural-small urban areas of Pinal County (**Figure 1**).

**Figure 1**

## PUBLIC INVOLVEMENT

Federal legislation requires a public involvement process that provides comprehensive information, timely public notice, and full public access to key decisions and is supportive of early and continuing involvement of the public in all areas of the transportation planning process.

The Public Involvement Plan contains background material, guidelines, and commitments that the Sun Corridor MPO is undertaking to incorporate an effective public process into future plans, projects, and programs. Specifically, the Sun Corridor MPO is committed to:

- Inclusive and meaningful public involvement;
- Open and honest communications with all individuals and entities;
- Timely public notice;
- Full public access to information and key decisions;
- Creating a sense of shared responsibility and ownership for regional transportation/congestion problems and a shared sense of pride in the development of solutions to those problems;
- Helping form partnerships between member entities, and the private and public sectors to plan and implement transportation/congestion solutions;
- Establishing policies and prioritizing needs based on valid data and using objective, fair and consistent processes;
- Providing information and gathering input so that decision makers will be able to make informed decisions.

### Public Process

The Sun Corridor MPO will update the TIP on a regular basis and will strive to include as much public input as possible. When unprogrammed funding is available, the TAC will submit projects for inclusion in the TIP. The review of the projects will occur by the TAC in a public meeting; and, any project submitted that is utilizing federal dollars will be fiscally constrained. The draft document will be available for public comment and will be available at the Sun Corridor MPO Office and web site [www.scmpo.org](http://www.scmpo.org).

The draft document will be presented to the Executive Board for approval after the public comment period has ended and all comments submitted. The Executive Board has the option of continuing with the approval process or moving to a future date to allow for additional comments. The Sun Corridor MPO follows the adopted and ADOT approved Title VI/Limited English Proficiency Plan to ensure the greatest amount of public participation possible during the TIP development process.

### Interagency Consultation

The Sun Corridor MPO ensures that applicable government agencies and transit providers are consulted on changes to the TIP. Prior to TIP amendment approval, The Sun Corridor MPO conducts consultation with interagency partners including resource and environmental agencies.

### Title VI, Environmental Justice and Limited English Proficiency (LEP) Program

Title VI and LEP activities are required components in the metropolitan planning process and are used to ensure that people of all races, colors, national origin, or disability have an equal voice in the planning process and receive equal benefit from the results of such planning. Additional protections are provided in other federal and state authorities for individuals with limited English proficiency, income status, religion, sex, disability, sexual orientation, gender identity (as defined in paragraph 249(c)(4) of title 18, U.S.C.), and age.

The [Sun Corridor MPO Title VI/LEP and Environmental Justice Program](#) webpage contains additional information on Title VI and LEP activities.

### Schedule

The development of the FY2025-2029 Sun Corridor MPO TIP began in November 2024. The schedule noted in Figure 2 demonstrates the high level of involvement of the Sun Corridor MPO member agencies, the public and interested parties have to review the development of the FY2025-2029 Sun Corridor MPO TIP. The Sun Corridor MPO Technical Advisory Committee and Executive Board meetings are open to the public.

## FUNDING

The Arizona Department of Transportation (ADOT) is the designated recipient of the Federal-aid Highway funds used for planning and research purposes. As the designated recipient of the planning funds ADOT has the responsibility and the authority under 2 CFR Part 200 (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments) to oversee all activities under the Federal-aid Program by the sub recipients of these funds. The Sun Corridor MPO is dependent on federal funding for the operation of the MPO; and, to perform planning activities used to deliver a variety of projects in the MPO planning boundaries. Apportionments represent the amount of federal funding based on formula. Obligation Authority (OA) is the amount of authorized apportionments which Congress allows states to obligate in an individual year. This is the amount which FHWA will reimburse. All OA and apportionments lapse annually on June 30<sup>th</sup>.

### **Planning Funds (PL) and Planning (PL) Funding Set-aside for Increasing Safe and Accessible Transportation Options (SATO)**

Planning Funds (PL) are apportioned to states on the basis of population in urbanized areas and relative to the amount of highway construction funds the state receives. PL funds require a 5.7% local match. The Infrastructure Investment & Jobs Act (IIJA) requires each MPO to use at least 2.5% of its PL funds (and each State to use 2.5% of its State Planning and Research funding under 23 U.S.C. 505) on specified planning activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities. [§ 11206(b).] The match requirement for the 2.5% of PL funds was waived. The below amounts reflect the apportionments available to the MPO annually.

<b>Funding Type</b>	<b>Annual Apportionment</b>	<b>Match Requirement</b>
Planning Funds (PL)	\$156,611	5.7%
PL (SATO)	\$4,015	0.0%

### **State Planning & Research Funds (SPR)**

The Arizona Department of Transportation (ADOT) is the designated recipient of the Federal-Aid Highway Funds used for planning and research purposes. ADOT receives State Planning and Research (SPR) funds from Federal Highways Administration (FHWA) and utilizes some of these funds with planning agencies to conduct transportation planning activities. SPR funds are discretionary and are typically administered by ADOT to carry out specific technical activities. In the Sun Corridor MPO region SPR funds will be used to conduct transportation planning activities and administration of the program. SPR funds require a 20% local match. The below amounts reflect the apportionments available to the MPO annually.

<b>Funding Type</b>	<b>Annual Apportionment</b>	<b>Match Requirement</b>
State Planning and Research (SPR)	\$125,000	20%

### **Surface Transportation Block Grant Funds (STBG)**

STBG is a federal-aid highway flexible funding program that funds a broad range of surface transportation capital needs including roads, transit, airport access, vanpool, and bicycle and pedestrian facilities. Transit related planning, research and development activities are also eligible for the use of STP funds. These funds require a 5.7% local match. The below amount reflects the apportionment available to the MPO annually.

### **Highway User Revenue Funds (HURF) Exchange Program**

The HURF Exchange program enables local governments to exchange STBG federal transportation funding with ADOT for state-generated HURF revenue. HURF exchange funding can be used on eligible design and construction projects.

<b>Funding Type</b>	<b>Annual Apportionment</b>	<b>Match Requirement</b>
Surface Transportation Block Grant Funds (STBG)	\$656,312	5.7%

### **Carbon Reduction Program (CRP)**

The CRP funding is a federal-aid highway funding program that funds projects designed to reduce transportation emissions, defined as carbon dioxide (CO2) emissions from on-road highway sources. A 5.7% match is required and must be provided by the local jurisdiction, depending on the type of project.

<b>Funding Type</b>	<b>Annual Apportionment</b>	<b>Match Requirement</b>
Carbon Reduction Program (CRP)	\$108,687	5.7%

### **Consolidated Planning Grant (CPG) Program FTA 5303/5304d**

The Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) offer States the option of participating in the CPG program. The CPG program allows the States and Metropolitan Planning Organizations (MPOs) to merge funds from the FTA Metropolitan Planning Program (MPP) and State Planning and Research Program (SPRP) with FHWA Planning (PL) and SPR 5305D funds into a single consolidated planning grant. States or MPOs have the option to transfer planning funds to either FTA or FHWA to be awarded and administered for metropolitan or metropolitan and statewide planning purposes. This CPG program fosters a cooperative effort between the Federal agencies and the participating States and MPOs to streamline the delivery of their planning programs to provide flexibility in the use of planning funds. These funds will have a 5.7% match. Obligation Authority does not apply to the FTA CPG funding.

Funding Type	Annual Apportionment	Match Requirement
Consolidated Planning Grant Funds – Section 5303/5305	\$ 92,923	5.7%

#### **FTA Section 5310 – Rural Areas**

The FTA Section 5310 funding is filtered through the ADOT Multimodal Planning Division (MPD) - Transit Section and is available through a competitive application process through ADOT. To qualify for the funding, the organizations must be listed in the Central Arizona Governments (CAG) and Sun Corridor MPO Human Service Coordinated Transportation Plan prepared and provided by the CAG and SCMPO shared Mobility Manager. The funding amount available is provided by ADOT at the beginning of the 2-year grant cycle. Any awarded amounts to the eligible 5310 programs will be included in the Sun Corridor MPO TIP.

#### **FTA Section 5311 – Enhanced Mobility of Seniors and Individuals with Disabilities**

The FTA Section 5311 funding is also filtered through the ADOT Multimodal Planning Division (MPD) - Transit Section and is available through a competitive application process through ADOT. This program provides capital, planning and operating assistance to states to support public transportation in rural areas with populations less than 50,000. To qualify for the funding, the organizations must be listed in the Central Arizona Governments (CAG) and Sun Corridor MPO Human Service Coordinated Transportation Plan prepared and provided by the CAG and SCMPO shared Mobility Manager. Those within the Sun Corridor MPO region are: Central Arizona Regional Transit (CART) and Cotton Express. The funding amount available is provided by ADOT at the beginning of the two-year grant cycle. Any awarded amounts will be included in the Sun Corridor MPO TIP.

#### **FTA Section 5307 – Urbanized Areas**

This program provides grants to urbanized areas (over 50,000 in population) for public transportation, capital, planning, job access, and reverse commute projects, as well as operational expenses in certain circumstances. The City of Casa Grande is eligible for these funds for an intra-city transit system. The City of Casa Grande will begin a Demand Response Transit service in the Fall of 2023. Any awarded amounts will be included in the Sun Corridor MPO TIP.

#### **Federal Transit Administration Funding (FTA) – Section 5304**

The FTA Section 5304 funding is provided to ADOT via FTA for transit planning. The funding is available on a competitive basis.

**Highway Safety Improvement Program (HSIP) Funds**

HSIP funds are a federal funding source dedicated to safety improvement projects and planning activities distributed within the State on a competitive application process through ADOT. The main purpose of the HSIP funding is to achieve a reduction in fatalities and serious injuries on all public roads, including non-State-owned roads and roads on tribal land. These funds require a 5.7% match; however, some projects are 100% funded.

**Transportation Alternative (TA) Funds**

Metropolitan Planning Organizations for small urbanized area (under 200,000) are eligible for TA funds. The TA funding is available through a competitive application process through ADOT. The funds require a 5.7% local match, with some flexibility depending on the type of project.

**Bridge Surface Transportation Block Grant Funding**

This funding can be used for Scoping Preliminary Engineering for bridges classified as Fair or Poor or having a load capacity rating that requires the bridge to be posted for weight restrictions based on the National Bridge Inspection Standards (NBIS). All bridges regardless of condition are eligible for Preservation/Preventative Maintenance or Protection measures. The Bridge STBG funding is distributed within the State on a competitive application process through ADOT. Eligible project costs will be funded at 94.3% federal share with a 5.7% local match.

**Bridge Formula Program (BFP) (Infrastructure Investment & Jobs Act (IIJA))**

The BFP funding can be used for design and construction of bridges classified as Fair or Poor or having a load capacity rating that requires the bridge to be posted for weight restrictions based on the National Bridge Inspection Standards (NBIS). The type of work includes bridge replacement, rehabilitation, preservation, protection, and construction, for off-system bridges within the State of Arizona. The BRP funding is distributed within the State on a competitive application process through ADOT. The BFP eligible project costs will be funded with 100% federal share and no local match is required.

## Performance Targets

Moving Ahead for Progress in the 21<sup>st</sup> Century Act of 2012 (MAP-21), identified the following national transportation system goal areas:

- Safety
- Infrastructure Conditions
- Congestion Reduction
- System Reliability
- Freight Movement & Economic Vitality
- Environmental Sustainability
- Transit

Performance targets were established for each of these goals. State Departments of Transportation (DOT) are required to establish performance targets for each measure. MPOs are required to either support the State target for each performance measure that is applicable to their region or establish their own targets within 180 days of State target establishment.

### Safety

On August 31, 2024, the Arizona Department of Transportation (ADOT) formally established Safety Projections (Targets) for the state of Arizona for 2025. These Safety Projections (Targets) are based on the Safety Performance Measures established by the Federal Highway Administration's (FHWA) Safety Performance Management (Safety PM) final ruling and are based on five year rolling averages. On September 11, 2018, the Sun Corridor MPO Executive Board voted to support and adopt the ADOT performance targets established in perpetuity or until the MPO should deem it necessary to establish and adopt our own targets.

<i><b>Performance Measure</b></i>	<i><b>2025 Target</b></i>
Number of Fatalities	1263.8
Rate of Fatalities/100MVMT	1.665
Number of Serious Injuries	3729.6
Rate of Serious Injuries/100MVMT	4.914
Number of Non-motorized Fatalities and Serious Injuries	846.6

### ***SCMPO Commitment***

The ADOT State Transportation Improvement Program (STIP) contains the following types of projects that support the achievement of the established safety performance targets:

- Installation of speed feedback signs including solar LED enhanced speed limit signs

#### Infrastructure Conditions

On August 30, 2023, the Arizona Department of Transportation (ADOT) established new performance targets for 2022-2025. On November 22, 2024 ADOT established revised poor pavement condition targets for the Interstate and the non-Interstate NHS to 4.5% and 10% respectively. On September 11, 2018, the Sun Corridor MPO Executive Board voted to support and adopt the ADOT performance targets established in perpetuity or until the MPO should deem it necessary to establish and adopt our own targets.

The pavement performance measures cover the Interstate and the non-Interstate NHS. MAP-21 set the stated goal of maintaining the highway infrastructure asset system in a state of good repair.

<b><i>Performance Measure</i></b>	<b><i>2-Year Target</i></b>	<b><i>4-Year Target</i></b>
Percent of National Highway System (NHS) Bridges Classified as in Good Condition based on deck area	52%	52%%
Percent of NHS Bridges Classified in Poor Condition based on deck area	4%	4%
Percent of Interstate Pavements in Poor Condition	2%	4.5%
Percent of Non-Interstate NHS Pavements in Poor Condition	6%	10%

Percent of Interstate Pavements in Good Condition	44%	44%

### ***SCMPO Commitment***

The ADOT STIP contains the following types of projects that will improve the condition of highway pavements:

- Pavement preservation including chip seals, fog coats, micro surface treatments and high friction surface treatments
- Pavement rehabilitation including mill and overlay projects
- Pavement reconstruction
- Bridge preservation including scour retrofit, bridge rehabilitation, bridge deck rehabilitation, and bridge replacement and rehabilitation,
- Bridge reconstruction including deck replacement, and replacement and widening.

### **Congestion Reduction**

On August 30, 2023, the Arizona Department of Transportation (ADOT) established new performance targets for 2022-2025. On September 11, 2018, the Sun Corridor MPO Executive Board voted to support and adopt the ADOT performance targets established in perpetuity or until the MPO should deem it necessary to establish and adopt our own targets.

The Congestion Mitigation and Air Quality (CMAQ) total emissions reductions requirement applies to nonattainment and maintenance areas for carbon monoxide (CO), ozone (O3) and particulate matter (PM). The total emission reduction is calculated by summing the 2- and 4-year totals of emission reductions of applicable criteria pollutant and precursor, in kilograms per day, for all projects reported in the FHWA CMAQ tracking system. Most of the CMAQ funded projects in Arizona are located in the Maricopa Association of Governments (MAG) region and target setting was closely coordinated with MAG.

<b><i>Performance Measure</i></b>	<b><i>Category</i></b>	<b><i>2-Year Target</i></b>	<b><i>4-Year Target</i></b>
Congestion Mitigation and Air Quality (CMAQ) Emissions Reductions (Kilograms per day)	Volatile Organic Compounds	222.950	343.669
	Carbon Monoxide	5027.922	8120.895
	Nitrogen Oxides	393.892	572.136
	Particulate Matter (<10 microns)	965.365	1817.637
	Particulate Matter (<2.5 microns):	0.000	3.467

### ***SCMPO Commitment***

The following types of projects were included in the ADOT STIP to support improved congestion reduction:

- Design, construct, and rehabilitation of the Freeway Management System including the installation of Intelligent Transportation Systems such as signals, adaptive ramp meters, connected and automated vehicle equipment, dynamic message signs, CCTV cameras, EVP networking, bike detection and improved signs
- Bike lanes and reconstruction of sidewalks with ADA compliant ramps and driveways
- Asphalt paths and underpasses, multiuse pathways and crossings, grade separated bike/ped bridge
- Pave unpaved alleys, dirt roads, and shoulders

### **System Reliability**

On August 30, 2023, the Arizona Department of Transportation (ADOT) established new performance targets for 2022-2025. On September 11, 2018, the Sun Corridor MPO Executive Board voted to support and adopt the ADOT performance targets established in perpetuity or until the MPO should deem it necessary to establish and adopt our own targets.

NHS Travel Time Reliability identifies the percent of person-miles on the Interstate and the non-Interstate NHS that are reliable. Two and four year targets are required for the Interstate and a four year target is required for the non-Interstate NHS.

### ***SCMPO Commitment***

The following types of projects were included in the ADOT STIP to support improved travel time reliability:

- Design and construct a Freeway Management System including the installation of Intelligent Transportation Systems such as signals, adaptive ramp meters, connected and automated vehicle equipment, dynamic message signs, CCTV cameras, EVP networking, bike detection and improved signs
- Procurement of travel time data to aid in freeway management
- Roadway widening including the design or construction of general purpose and HOV lanes
- Traffic Incident support and Freeway Service Patrols
- Design and construction of roundabouts

- Design and construction of new roadways
- Intersection improvements

### **Freight Movement and Economic Vitality**

On August 30, 2023, the Arizona Department of Transportation (ADOT) established new performance targets for 2022-2025. On September 11, 2018, the Sun Corridor MPO Executive Board voted to support and adopt the ADOT performance targets established in perpetuity or until the MPO should deem it necessary to establish and adopt our own targets.

The truck travel time reliability measure applies to Interstate freeways. This measure utilizes the Truck Travel Time Reliability Index, a planning time index that may be used to schedule trip travel times. The freight reliability targets are data-driven and realistic; and intended to keep ADOT focused on improving freight movement on the Interstate freeways.

<b><i>Performance Measure</i></b>	<b><i>2-Year Target</i></b>	<b><i>4-Year Target</i></b>
Freight Reliability on the Interstate (Truck Travel Time Reliability Index)	1.37	1.48

### **Transit**

On November 18, 2022, the Arizona Department of Transportation (ADOT) formally released their Transit Asset Management Group Plan for the State of Arizona which included updated performance measures and targets for FY22 through FY26, based upon the transit assets currently held by ADOT subrecipients. On October 1, 2018, the Sun Corridor MPO Executive Board voted to support and adopt the ADOT performance targets established in perpetuity or until the MPO should deem it necessary to establish and adopt our own targets.

The updated Performance Targets and Measures for the Asset Categories Revenue Vehicles, Equipment, and Facilities are as follows:

### **SCMPO Commitment**

SCMPO will work with the Region's 5310 and 5311 Transit providers to help ensure these targets are met.

### **Transit Asset Management Plan**

Sun Corridor MPO region has one FTA 5307 transit provider agency who is required to identify performance measures and targets: City of Casa Grande. In March 2022, the Sun Corridor MPO, ADOT, and regional providers of public transportation (City of Casa Grande) signed a Performance Measure Target Setting and Data Sharing Charter, affirming the region's commitment to a performance-based planning approach.

The Casa Grande LINK is a small transit service that provides limited public transit to residents and visitors of Casa Grande, AZ. The City, a small UZA, receives Section 5307 CARES Act financial assistance through the FTA. We provide on demand service within a six square mile area serving downtown Casa Grande, the Florence Blvd and Cottonwood Lane east-west corridors, business and retail centers, schools, medical centers and a hospital, the City Recreation Center and Senior Center, two Libraries, five grocery stores and the Promenade Mall. Passengers can connect with CART, a regional transit service, that travels to the Central Arizona College, and the cities of Coolidge and Florence. The service is contracted with a third-party transit company that is responsible for operations, vehicle maintenance and staffing to support the service. The City does not own the revenue vehicles nor support vehicles that are used in this service. The revenue vehicles consist of two 13 passenger cut-aways; one 12 passenger van; and one 3 passenger mini-van. A support/backup vehicle consists of one 3 passenger auto.

Asset Class	Performance Measures	Target
<b>Rolling Stock</b> <i>All revenue vehicles</i>	Age - % of revenue vehicles within a particular asset class that have met or exceeded their Useful Life Benchmark (ULB)	20%
<b>Equipment</b> <i>Non-revenue vehicles</i>	Age - % of vehicles that have met or exceeded their Useful Life Benchmark (ULB)	20%
<b>Facilities</b> <i>All buildings or structures</i>	Condition - % of facilities with a condition rating below 3.0 on the FTA Transit Economic	20%

### Public Transportation Agency Safety Plan

Sun Corridor MPO region has one FTA 5307 transit provider agency who is required to identify performance measures and targets: City of Casa Grande. In March 2022, the Sun Corridor MPO, ADOT, and regional providers of public transportation (City of Casa Grande) signed a Performance Measure Target Setting and Data Sharing Charter, affirming the region's commitment to a performance-based planning approach.

The Public Transportation Agency Safety Plan for the region was developed by the City of Casa Grande in collaboration with the Sun Corridor MPO and ADOT.

The city has set the following safety performance targets to meet the National Public Transportation Safety Plan. The performance goals for reportable fatalities, injuries and safety events are measured against total vehicle revenue miles per mode of transit service. Per the National Public Transportation Plan, "Measuring the number of fatalities over vehicle revenue miles, by mode, provides a fatality rate from which to assess future performance". The System Reliability performance measure is a measure of the mean /average distance between major mechanical failures by mode.

Calculations will be based on May 1st to April 30th data.

**MEMO TO:** SUN CORRIDOR MPO TECHNICAL ADVISORY COMMITTEE  
**FROM:** Jason Bottjen, SCMPO Deputy Director  
**DATE:** June 5, 2025  
**SUBJECT:** 13.0 Recommend Approval of the Sun Corridor MPO Travel Policy

Sun Corridor MPO will be implementing a travel policy starting in Fiscal Year 2026. This travel policy establishes guidelines for the use of regional, state, and federal funds for all travel related expenses by employees, board members, committee members, designated alternatives, consultants, and contractors of the Sun Corridor MPO. It ensures compliance with applicable federal regulations and promotes transparency, accountability, and the responsible use of federal resources.

Travel and related costs incurred by individuals when in travel status for official MPO business (both in-state and out-of-state) must be necessary for the successful completion of projects, participation in professional conferences, meetings, training, collaborating with partner agencies, and workshops, and/or other MPO-related planning functions.

Travelers will be reimbursed for meals, lodging, airfare, transportation, fees, services, and incidental expenses based on the federal per diem rates, as published by the U.S. General Services Administration (GSA).

The Sun Corridor MPO staff recommends approval of the Sun Corridor MPO Travel Policy.

**MEMO TO:** SUN CORRIDOR MPO TECHNICAL ADVISORY COMMITTEE

**FROM:** Jason Bottjen, SCMPO Deputy Director

**DATE:** June 5, 2025

**SUBJECT:** 14.0 Recommend Approval to advertise, negotiate, and select a consultant for Sun Corridor MPO's Scoping Program

Sun Corridor MPO will be implementing a scoping program starting in Fiscal Year 2026. The scoping program will identify transportation projects within the MPO planning boundaries to be scoped with the intent of applying for competitive grants through the Arizona Department of Transportation (ADOT) and/or the US Department of Transportation. The types of scoping documents may include Scoping Letters, Project Assessments, Design Concept Reports, and scoping-related engineering documents (e.g. Traffic Warrant Study, Feasibility Report, Alternative Selection Report, etc.). Projects will be selected from a variety of sources (e.g. Sun Corridor MPO Regional Transportation Plan, Pinal County Strategic Transportation Safety Plan, Transportation Alternative Program, Bridge Program, Road Safety Assessments (RSAs), and member agencies studies).

The proposed procurement timeline and process is based on the best available information. Dates and actions marked with asterisks (\*\*) are subject to change as more information becomes available.
