

Welcome to ADOT's Statewide Listening Tour

ARIZONA

***A shared vision for the
future of transportation
in our state.***

A statewide vision is important

- Not all transportation needs are being met
- Without a clear destination, we are merely building in pieces
- Piecemeal efforts lead to systems that don't fit together
- This is not efficient
- We cannot afford to not be efficient

***A Listening Tour, not a
“telling” tour.***
