I. INTRODUCTION

Unified Planning Work Program (UPWP):

The Unified Planning Work Program (UPWP) is a description of the transportation planning activities to be conducted in the Sun Corridor MPO area in any specified two-year period. This biennial document is the foundation for requesting federal funds as well as a control tool for scheduling, budgeting, and monitoring the transportation planning process. The UPWP is developed in cooperation with the cities of Casa Grande, Coolidge, and Eloy; Pinal County, Arizona Department of Transportation (ADOT), the Federal Transit Administration (FTA), and the Federal Highway Administration (FHWA) and is approved by the Sun Corridor Technical Advisory Committee (TAC) and Executive Board.

The Work Program identifies the planning priorities and activities to be carried out within a metropolitan planning area to include (23CFR450.104):

- A description of planning work (tasks) and measurable outcomes and products;
- Who will perform the work;
- Timeframes for completing the work;
- Cost of the work; and
- Source(s) of funds.

The UPWP not only provides the MPO with a useful budgeting, scheduling, and monitoring tool, but it acts to provide the public with an understandable expectation of what the MPO will endeavor to achieve within the next two-year timeframe.

Occasionally, amendments and revisions may occur after adoption of the two-year UPWP to reflect funding changes and various task and schedule adjustments and edits to project time frames to match current and projected efforts.

Revisions that trigger a WP Administrative Modification (not requiring ADOT/FHWA prior approval):

- Change in key personnel;
- Publish reports resulting from the activities in the work program. Reports prepared for FHWA funded work shall include appropriate credits, references and disclaimer statements; and
- The use of program income as a match for Federal funds or to perform additional eligible work;
- Cumulative transfer among already approved work program line items less than 10% of the total federal funds or \$100,000;
-

Revisions to the UPWP can be performed by MPO staff. MPO staff is to notify ADOT FTA and/or FHWA of revisions.

Revisions that trigger a WP Amendments (requiring ADOT/FHWA prior approval):

- Adding a new WP element, task, activity, or project (regardless of cost)
- Increase in federal funds (regardless of amount)
- Cumulative transfer among already approved work program line items greater than 10% of the total federal funds or \$100,000;
- Change in the scope or objectives of activities (e.g., adding or deleting line items)
- Extending the period of performance past the approved work program period
- Transferring substantive programmatic work to a third party (e.g., consultant work not identified in the original work program)
- Capital expenditures including general purpose equipment not in the approved work plan. (Equipment is defined as an item of non-expendable, tangible personal property, having a useful life of more than one year and an acquisition cost which equals or exceeds the lesser of the capitalization level established by the recipient organization for financial statement purposes, or \$10,000. Examples include office equipment and furnishings, telephone networks, information technology equipment and systems, reproduction and printing equipment and vehicles)

Amendments to the UPWP must be approved by FHWA/FTA, and ADOT. Once approved, amendments become part of the UPWP document.

Description of Sun Corridor MPO area:

The 2020 U.S. Census population of communities within the Sun Corridor MPO:

Community	Population
Arizona City (Unincorporated)	9,640
Coolidge	12,008
Casa Grande	50,981
Other Areas (total)	39,382
Eloy Incorporated City*	15,635
Balance of Pinal County	223,747
TOTAL	112,011

**Based on 2020 Census, collected from Data.Census.Gov. The Eloy population is based on the incorporated city boundary and does not reflect an urban area. For Federal Aid purposes, the City of Eloy is considered a rural area.*

Approval and Authorization:

On May 6, 2013, Arizona Governor Jan Brewer sent a formal letter to the Federal Highway Administration requesting establishment of the Sun Corridor Metropolitan Planning Organization (MPO). The Sun Corridor MPO was established on this date.

Comprehensive Transportation Planning Activities:

The Sun Corridor MPO will lead the development of the Sun Corridor MPO area Regional Transportation Plan (RTP), the Transportation Improvement Program (TIP), Strategic Transportation Safety Plan, as well as transit planning activities within the region.

The Sun Corridor MPO activities are funded by federal aid funds from the United States Department of Transportation (FHWA and FTA), the Arizona Department of Transportation, and by member local governments, through fee or in-kind services.

Planning Priorities:

The Sun Corridor MPO Regional Transportation Plan defines the region's strategy for creating a regional transportation system that accommodates the current mobility needs of residents, while also looking to the future. The RTP presents a recommended investment strategy (RIS) for expenditure of federal funds within the Sun Corridor MPO region.

The RIS priorities were largely developed based on a technical analysis of recent and programmed projects, but also included public and stakeholder input received through stakeholder outreach as well as Sun Corridor TAC member directives.

The RIS recognizes the publics and stakeholders' priority to maintain existing infrastructure yet provides sufficient flexibility to modernize and expand the roadway system as needed. The RIS drives the allocation of resources and influences project selection yet is sufficiently flexible to allow Sun Corridor MPO agencies to accommodate and respond to changing needs and emerging priorities.

The funding allocations defined in the 2024 RIS underscore the goals of Sun Corridor MPO agencies to both preserve the current system and to increase roadway safety for residents and visitors, while also strategically investing to create/retain jobs.

- 35% Preservation
- 50% Modernization
- 15% Capacity

The impact of the RIS on transportation system performance will be limited because of the realities of diminishing long-range revenues. However, the RIS allocations across categories shows the commitment of Sun Corridor member agencies to:

- Improve mobility and safety through modest expansion as needed to address economic development needs;
- Preserve the region's major roadways (arterials and collectors);

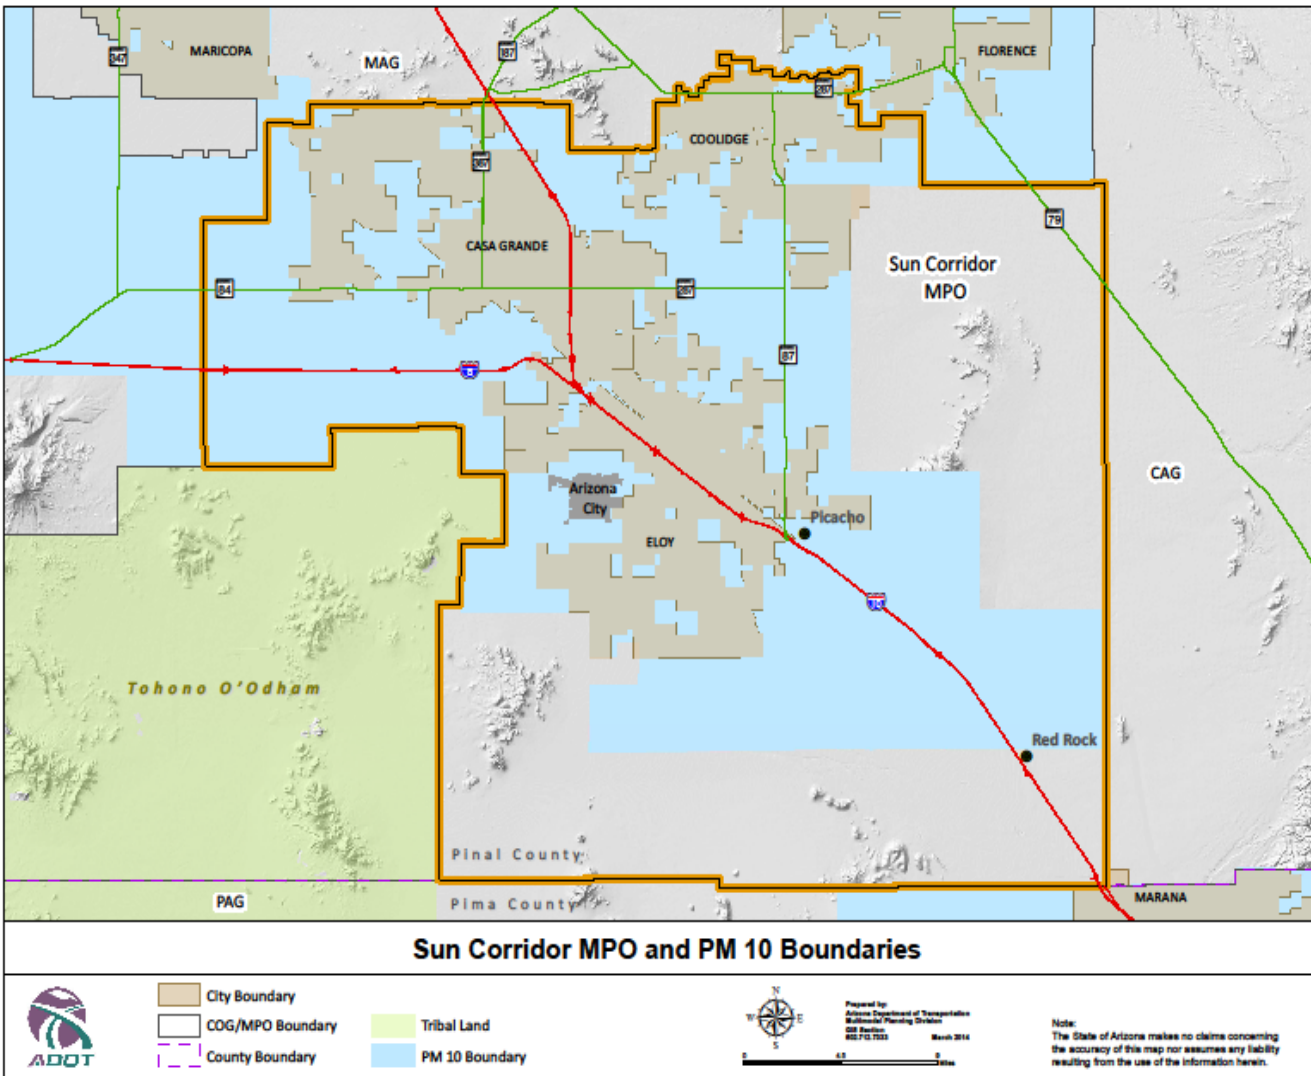

- Support economic development by investing in transportation corridors that improve connectivity to employment; and
- Increase safety and efficiency via system modernization.

Air Quality Activities:

Both the Sun Corridor MPO and the Maricopa Association of Governments (MAG) include portions of the West Pinal PM10 Serious Nonattainment Area and West Central Pinal PM2.5 Nonattainment Area. Both nonattainment areas are covered by the boundaries of both the Sun Corridor MPO and MAG. Consequently, transportation conformity is required to be demonstrated for both nonattainment areas by both agencies.

Metropolitan transportation plans, programs, and projects in the nonattainment areas must satisfy the requirements of the federal transportation conformity rule. The principal criteria for a determination of conformity are:

- 1) The Transportation Improvement Program (TIP) and Regional Transportation Plan (RTP) must pass an emissions budget test with a budget that has been found to be adequate or approved by the EPA for transportation conformity purposes, or interim emissions tests;
- 2) The latest planning assumptions and emission models in force at the time the conformity analysis begins must be employed;
- 3) The TIP and RTP must provide for the timely implementation of transportation control measures (TCM's) specified in the application air quality implementation plans;
- 4) Consultation with MAG, Arizona Department of Transportation (ADOT), Federal Highway Administration (FHWA), Federal Transit Administration (FTA), the Arizona Department of Environmental Quality (ADEQ), and members of the Sun Corridor MPO is essential to ensuring planning and projects in the nonattainment areas conform to the rules.
- 5) A Memorandum of Understanding (MOU) was developed to ensure coordination of the transportation planning activities in MAG and the Sun Corridor MPO planning areas within the Pinal County area. The MOU was signed on September 8, 2016.
- 6) The Sun Corridor MPO and MAG currently meet bimonthly to develop and maintain a common schedule for Regional Transportation Plan (RTP) and Transportation Improvement Program (TIP) actions that require transportation conformity determinations.
- 7) The executive directors of SCMPO and MAG, and staff from ADOT and the ADEQ will hold an annual meeting at or about the beginning of the calendar year. The purpose of the annual meeting will be to engage in discussion of mutual interests focused on the development of the Unified Planning Work Programs of MAG and SCMPO.

III. FUNDING DESCRIPTION & BUDGET SUMMARY

The Arizona Department of Transportation (ADOT) is the designated recipient of the Federal-aid Highway funds used for planning and research purposes. As the designated recipient of the planning funds ADOT has the responsibility and the authority under **2 CFR Part 200** (Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments) to oversee all activities under the Federal-aid Program by the sub recipients of these funds. ADOT's oversight responsibilities include but are not limited to overall Work Plan review, invoice billing review and approval, TIP certification, air quality reviews, and quality assurance and quality control of traffic data.

All work, including Sun Corridor staff time and consultant studies, listed in the Work Program are funded by one or more of the following funding sources:

- (1) **Metropolitan Planning (PL) Funds** – Federal metropolitan planning funds can be used for up to 94.3% of a project, with a required 5.7% match typically provided by local governments. The distribution of the PL Funds is accomplished through a formula developed by ADOT in consultation with the MPOs and must be approved by the FHWA.
- (2) **Planning (PL) Funding Set-aside for Increasing Safe and Accessible Transportation Options** - The BIL requires each MPO to use at least 2.5% of its PL funds (and each State to use 2.5% of its State Planning and Research funding under 23 U.S.C. 505) on specified planning activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities. [§ 11206(b).] The match requirement for the 2.5% of PL funds was waived.
- (3) **Statewide Planning and Research (SPR) Funds** – SPR funds are federal dollars from the State Planning and Research Program administered by the Arizona Department of Transportation. Some SPR funds may be allocated to the MPO to help plan for the non-urbanized portion of the MPO. A 20% match is required and must be provided by the local jurisdiction, depending on the project.
- (4) **Federal Transit Administration Funding** – FTA funds are secured annually through the FTA Metropolitan Planning Program Section 5303/5305d. FTA funds are designated for transit planning and research activities. The funds require a 20% local match, which is typically provided by local governments in hard dollars or in-kind. In addition, other federal or state funding that is not specifically designed for planning activities can be allocated for planning purposes. In those cases, funds such as FTA Section 5304, 5305 (e), 5307, and 5310 will be shown in the budget tables.
- (5) **Carbon Reduction Program (CRP)** – The CRP funding is a federal-aid highway funding program that funds projects designed to reduce transportation emissions, defined as carbon

dioxide (CO₂) emissions from on-road highway sources. A 5.7% match is required and must be provided by the local jurisdiction, depending on the type of project.

- (6) **Consolidated Planning Grant (CPG) Program** - The Federal Transit Administration (FTA) and the Federal Highway Administration (FHWA) offer States the option of participating in the CPG program. The CPG program allows the States and Metropolitan Planning Organizations (MPOs) to merge funds from the FTA Metropolitan Planning Program (MPP) and State Planning and Research Program (SPRP) with FHWA Planning (PL) and SPR 5305D funds into a single consolidated planning grant. States or MPOs have the option to transfer planning funds to either FTA or FHWA to be awarded and administered for metropolitan or metropolitan and statewide planning purposes. This CPG program fosters a cooperative effort between the Federal agencies and the participating States and MPOs to streamline the delivery of their planning programs to provide flexibility in the use of planning funds. These funds will have a 5.7% match. Obligation Authority does not apply to the FTA CPG funding.
- (7) **Surface Transportation Block Grant Program (STBG) Funds** - STBG is a federal-aid highway flexible funding program that funds a broad range of surface transportation capital needs including roads, transit, airport access, vanpool, and bicycle and pedestrian facilities, administrative and operating expenses, as well as planning, design, and construction. The funds require a 5.7% local match
- (8) **Highway Safety Improvement Program (HSIP) Funds** - HSIP funds are a federal funding source dedicated to safety improvement projects and planning activities distributed within the State on a competitive basis. The main purpose of the HSIP funding is to achieve a reduction in fatalities and serious injuries on all public roads, including non-State-owned roads and roads on tribal land. These funds require a 5.7% match; however, some projects are 100% funded.
- (9) **Transportation Alternative (TA) Funds** - Metropolitan Planning Organization for small, urbanized areas (under 200,000) are eligible for TA funds. The TA funding is available through a competitive application process through ADOT. The funds require a 5.7% local match, with some flexibility depending on the type of project.
- (10) **Highway User Revenue Funds (HURF) Exchange Program** – The HURF Exchange program enables local governments to exchange STBG federal transportation funding with ADOT for state-generated HURF revenue. HURF exchange funding can be used on eligible design and construction projects.
- (11) **Bridge STBG Funding** – This funding can be used for Scoping Preliminary Engineering for bridges in Fair or Poor condition. Under the STBG Program, eligible project costs will be funded at 94.3% federal share with a 5.7% local match.

- (12) **Carry-forward** – Carry forward funds may occur when an MPO does not expend all authorized funds in the current fiscal year. Carry-forward funds are combined with the annual allocation for the new fiscal year to determine the available fund balance for the upcoming year. All carry-forward funds must be identified in the Work Program.
- (13) **In-Kind Contribution** – In-kind contributions may be accepted as the match for federal funds. The Sun Corridor MPO will use in-kind contributions from members and volunteers for match requirements when utilizing federal funds.
- (14) **Matching Funds** - In order to secure federal funds, the state and/or local government must place matching funds on a project. The state and local funds must be shown in the Unified Planning Work Program. A detailed table of the state/local funds is included in the budget section of the Unified Planning Work Program. The required percentages of matching amounts may vary according to the Federal fund type. When at all possible, the Sun Corridor MPO will use in-kind contributions for match. On a monthly basis, the MPO staff tracks the time spent by local governments and stakeholders on MPO activities, research, and meetings. Matching contributions can also be made in the form of facilities and support services provided to the Sun Corridor MPO. The contributions reported are accumulated over a 2-year Work Program period and used as applicable match for all funding received.
