1. Introduction

Under Title VI of the Civil Rights Act and subsequent federal regulations and protections, programs or activities receiving federal financial assistance may not exclude persons from participating in, deny benefits to, or subject anyone to discrimination based on a person's race, color, national origin, or disability.

This document outlines the roles, methods of administration, and analyses that support nondiscrimination in the Sun Corridor Metropolitan Planning Organization (MPO) regional planning activities. This document also represents the Sun Corridor MPO's commitment, obligations, and compliance with Title VI.

The Sun Corridor MPO was established to provide a coordinated, regional approach to transportation planning and decision-making. Federal transportation law requires the Governor of each state to designate a Metropolitan Planning Organization (MPO) for every urbanized area with a population of 50,000 or more. The Sun Corridor MPO was designated as the MPO for transportation planning in 2013. The Sun Corridor MPO represents the cities of Casa Grande, Coolidge, Eloy, and portions of rural Pinal County.

The Sun Corridor MPO is committed to complying with all Title VI requirements as a sub-recipient of federal funding from the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA). This funding supports the development of plans, programs, and activities related to transportation planning activities.

To ensure all voices are heard, the Sun Corridor MPO actively seeks public participation in its technical and executive board meetings and solicits public input for planning and policymaking. The thoughts, opinions, and ideas of the community are extremely valued and are necessary for the Sun Corridor MPO to serve all interests and needs of residents within the region.

The Sun Corridor MPO strives to ensure nondiscrimination in all of its programs and activities, whether those programs and activities are federally funded or not. As a sub-recipient of federal funding, the Sun Corridor MPO is responsible for initiating and monitoring Title VI activities, preparing required reports, technical assistance, and training. The Sun Corridor MPO's contractors/consultants must also comply with this policy.

In an effort to keep the Title VI Plan a reasonable size, the section of the PPP specifically relevant to Title VI is included below.

Excerpts from the Public Participation Plan

Public participation implies an open process. This means that anyone who is potentially affected, or is just interested in the process, is welcome to participate.

Just opening the process to the public is not enough. There are numerous populations that are not likely to get involved unless a special effort is made to reach out to them. In this Plan, groups that need a more focused effort to get involved are referred to as “underserved populations”. These include, but are not limited to:

- Minority (Hispanic and/or non-white) community members;
- Low-Income community members;
- Physically and mentally challenged community members;
- People who rely on alternative transportation;
- Persons with language needs;
- Aging populations.

The Sun Corridor MPO will make every effort to hold public meetings in facilities that are compliant with the Americans with Disabilities Act (ADA); and, arrange for reasonable accessibility and accommodation to persons with disabilities. Further, to provide equally effective communication, Sun Corridor MPO will make do preparation, when appropriate, for persons requiring assistance, such as the hearing or visually impaired, upon request.

The Sun Corridor MPO will assist persons with language needs an opportunity to participate in the transportation planning process. Staff will make every effort to provide Spanish translators and document translation if resources are available. Individuals who are not able to attend meetings may make a request for the information at Sun Corridor MPO offices for delivery of materials to their homes. Sun Corridor MPO staff, coordinating availability, is willing to go speak to groups to eliminate participation barriers and involve citizens in the transportation process. By making a reasonable extra effort to include these populations, the Sun Corridor MPO hopes to ensure that the interests and input of all residents are given equal consideration.

The Sun Corridor MPO has provided other means of outreach other than the traditional methods. One method used was providing a survey in English and in Spanish to seek input on a safety study, with a chance to win a Gift Card. Surveys were available on-line and provided to the local agencies and to specific site locations that were identified as having heavy foot traffic, such as community centers, senior centers, libraries, after-school programs, and schools. Other untraditional methods will be used, pending the nature of the project, to engage persons with language needs.

Listed below are various outreach processes that may be used by the Sun Corridor MPO to ensure full and fair participation by all potentially affected populations in the transportation decision-making process:

- Translate outreach materials based on a Four-Factor analysis conducted on a project-by-project basis.
- Advertise meetings, public notices, and other materials in the Tri-Valley newspapers, SCMPO and local agency websites, and other high-traffic locations frequented by the public.

- Advance demographic research of potentially impacted communities for transportation-related study projects to determine the level and targeted outreach tools needed for public involvement based on persons with language needs, and Title VI Data collection.
- Include Spanish text on Sun Corridor MPO materials to the public, notifying them of the opportunity to request language services, if needed.
- Forming partnerships between member entities, public and private sectors.
- Consider the proximity to public transportation routes when selecting a meeting location.
- Schedule public meetings at the appropriate time of day based on community assessments.
- Use of Title VI Self-identification cards at meetings.
- Use of various types of modes to communicate Sun Corridor MPO meetings.
- Virtual public involvement is a new opportunity for information sharing and public involvement in the transportation planning, programming, and project development process. These new opportunities include, but are not limited to techniques, such as telephone town halls and online meetings, pop-up outreach, social meetings/ meeting-in-a box kits, story maps, quick videos, crowdsourcing, survey tools, real-time polling tools, social media following, and visualization. All virtual meetings have a call-in option for those who may have limited or no access to the internet.
- Ensuring accessibility of web content and mobile applications complies with Title II of the ADA.

7. Language Assistance

A person with language needs may be an individual who does not speak English as their primary language and who has a limited ability to read, speak, write, or understand English. Arizona's diverse population makes it critically important that the Sun Corridor MPO be innovative and proactive in engaging individuals from different cultures, backgrounds and businesses in planning, project development and other program areas.

The Sun Corridor MPO will take reasonable steps to ensure that persons with language needs have meaningful access and an equal opportunity to participate in our services, activities, programs, and other benefits. The policy of Sun Corridor MPO is to ensure meaningful communication with persons with language needs and their authorized representatives. All interpreters, translators, and other aids needed to comply with this policy shall be provided without cost to the person being served, and individuals and their families will be informed of the availability of such assistance free of charge.

Language assistance will be provided through the use of competent bilingual staff, staff interpreters, contracts or formal arrangements with local organizations providing interpretation or translation services, or technology and telephonic interpretation services. All staff will be provided notice of this policy and procedure, and staff who may have direct contact with persons with language needs will be trained in effective communication techniques, including the effective use of an interpreter.

Sun Corridor MPO will conduct a regular review of the language access needs of our population, as well as update and monitor the implementation of this policy and these procedures, as necessary.

Vital Documents are documents that convey information that critically affects the ability of the recipient/customer to make decisions about his/or her participation in the program or activity. Classification of a document as "vital," depends upon the importance of the program, information, encounter, or service involved, and/or the consequence to the persons with language needs if the information in question is not provided in an accurate or timely manner. Examples of vital documents include, but are not limited to applications, public notices, consent forms, letters containing important information regarding participation in a program, eligibility rules, notices pertaining to the reduction, denial or termination of services or benefits, right to appeal, notices advising of the availability of language assistance and outreach and community education materials. The determination of what documents are considered "vital" is left to the discretion of individual components, which are in the best position to evaluate their circumstances, services, and resources.

Translating documents to a fourth (4th) grade literacy level ensures the targeted audience understands the information. Community-based organizations or focus groups can assist with testing translations for language and literacy level appropriateness.

The Department of Transportation Policy Guidelines give recipients of federal funds substantial flexibility in determining what language assistance is appropriate based upon a local assessment. Due to current financial constraints, translation of large plan documents and maps are considered not warranted at this time. The Sun Corridor MPO will provide translation services as resources allow.

Sun Corridor MPO Four Factor Analysis

As a best practice, a four-factor analysis will be utilized to determine the need for translation services in order to ensure persons with language needs can receive information about and participate in the planning process.

The Sun Corridor MPO will conduct a Four Factor Analysis on a project-by-project basis. The project study area will be analyzed to determine if persons with language needs exist, to ensure public outreach materials are made available.

Based on the four—factor analysis, the Sun Corridor MPO will continue to provide public notices in English and Spanish. Translation and interpretation services will be provided through public online translation sites, bilingual community members, and if not cost prohibit and funds permit, through a language interpretation and translation service. The goal of the Sun Corridor MPO is to engage all community members in the planning process.

Factor 1: The number and proportion of persons with language needs served or encountered in the eligible service population.

According to the U.S. Census Bureau, 2020-2024, American Community Survey five-year estimates, 8.6% or 10,220 of the Sun Corridor MPO area population is considered to be persons with language needs. This equates to 5,173 individuals of the population five years of age or older who report speaking English “well”. The predominate language spoken by these individuals is Spanish. Under the Department of Justice’s (DOJ) Safe Harbor provision, it is necessary to translate materials when five percent or 1,000 persons, whichever is less, speak English less than “very well”.

Factor 2: The Frequency in which Persons with Language Needs Encounter Sun Corridor MPO Programs

Some government offices provide materials in English and Spanish but, because the general public comes in contact with the Sun Corridor MPO on an infrequent basis, only public notices and certain vital materials are available in both English and Spanish.

Factor 3: The Importance of Services Provided by Sun Corridor MPO Programs

Transportation planning is an important facet of the community and affects all residents. All residents are encouraged to participate in public meetings.

Factor 4: Available resources, including language assistance services varying from limited to wide ranging with varying costs.

Due to fiscal constraints and limited resources and a small staff, interpretation and translation services are only available if resources are available. However, public notices are available in English and Spanish.

On an ongoing basis, the Sun Corridor MPO will assess changes in demographics, types of services or other needs that may require reevaluation of this policy and its procedures. In addition, the Sun Corridor MPO will regularly assess the efficacy of these procedures, including but not limited to mechanisms for securing interpreter services, equipment used for the delivery of language assistance, complaints, feedback from member entities and community organizations, etc.

8. Program Areas

Regional Transportation Planning

- Long Range Transportation Plan
- Transportation Improvement Program (TIP)
- Air Quality Conformity
- Planning Studies (e.g. Transit, Safety, etc.)
- Public Participation Plan (PPP)
- Coordinated Public Human Services Transportation Plan

The Title VI Coordinator provides oversight to the program areas. Annually, the Title VI Coordinator will report in the Goals and Accomplishment Report data collected throughout the year and explain the steps for each program area in order to comply with Title VI Program requirements.

The Title VI Coordinator is responsible for overseeing the preparation and execution of all planning study contracts for consultants to ensure Title VI compliance.

FHWA Funded Contracts will be reviewed for the following:

- Include the most recently signed assurances;
- Include subrecipient signed assurances; and
- Ensure the consultant is complying with Title VI Assurances.

The following matrix outlines the program areas, a general description of each program, review procedures, and non-compliance procedures:

Program Area	General Description	Program Review Procedures	Non-Compliance
Regional Transportation Planning: Regional Transportation Plan Transportation Improvement Program Air Quality Conformity Other Planning Studies (e.g. transit, safety, etc.)	The RTP addresses the mobility needs of people of all ages, incomes and abilities. It identifies the desired vision for the region's transportation system in which funding is unconstrained. The fiscally constrained RTP addresses federal requirements for the process of developing, and the content to be included within, a long-range transportation plan. Specifically, it defines transportation elements and services to be provided over the next 20 years based on reasonably expected revenues. Transportation Improvement Program (TIP) identifies all federally funded transportation projects to be completed in the Sun Corridor MPO region over a four-year period. Under the Clean Air Act, SCMPO has responsibilities to ensure its transportation plans and programs support air quality goals and contribute to meeting air quality standards.	All Board and committee meetings are open to the public. Public comment is always included as an agenda item for all Executive Board and Technical Advisory Committee meetings. Self-Identification Surveys in both English and Spanish are made available at each Executive Board and Technical Advisory Committee meeting. The data collected from these surveys allows for the analysis to ensure that all persons have an equal opportunity to benefit from or have access to the activities of the MPO and to avoid any disproportionate impacts from those activities. All planning studies are made available to the public for a minimum of 30-day review and comment period. As part of the public outreach process, surveys are made available to the public either on-line and/or in hard copy to collect a variety of data for planning studies. Statistical data such as race, color, and national origin are captured during these public surveys. The data collected from these surveys allows for the analysis to determine if Title VI neighborhoods are receiving equal benefit and not a disproportionate burden. As a best practice, a Four Factor Analysis is conducted on the planning study area to determine if study documents need to be provided in an additional language.	See Section 13. Compliance, Monitoring, and Non-Compliance for details on how the Sun Corridor MPO ensures compliance, monitoring, and handles non-compliance with MPO Staff, subrecipients, and consultants.

Program Area	General Description	Program Review Procedures	Non-Compliance
Public Participation Plan	The purpose of a public participation plan is to ensure a proactive public involvement procedure that allows the public to be involved in all phases of the planning process by providing complete information, timely public notice, opportunities for making comments, full access to key decisions, and early and continuing involvement in developing transportation plans and programs.	The Public Participation Plan is made available to the public for a 45-day comment/review period. Public Notices are made available in both English and Spanish. Individuals who are not able to attend meetings may make a request for the information at Sun Corridor MPO offices for delivery of materials to their homes. Public meetings are held in facilities that are compliant with the Americans with Disabilities Act (ADA); and, arrange for reasonable accessibility and accommodation to persons with disabilities. Further, to provide equally effective communication, Sun Corridor MPO will make due preparation, when appropriate, for persons requiring assistance, such as the hearing or visually impaired, upon request.	See Section 13. Compliance, Monitoring, and Non-Compliance for details on how the Sun Corridor MPO ensures compliance, monitoring, and handles non-compliance with MPO Staff, subrecipients, and consultants.

Program Area	General Description	Program Review Procedures	Non-Compliance
Coordinated Public Human Services Transportation Plan	This plan identifies the transportation needs of individuals with disabilities, older adults and people with low incomes, provide strategies for meeting these needs and prioritize transportation services for funding and implementation.	Demographic information from the US Census is used to provide a better understanding and a more complete picture of the population in the CAG/SCMPO Region, and in particular persons with disabilities, older adults, and low-income individuals and households. Coordination with 5310 and 5311 transit agencies for Title VI outreach during any transit-oriented planning activities. Rely on transit agencies for on-board surveys on ridership demographics. Data collected from the survey determines transit needs/service gaps and to establish priorities. The Plan is made available to the public for a minimum of 30-day review and comment period.	See Section 13. Compliance, Monitoring, and Non-Compliance for details on how the Sun Corridor MPO ensures compliance, monitoring, and handles non-compliance with MPO Staff, subrecipients, and consultants.

9. Data Collection and Analysis

The Sun Corridor MPO is required by federal regulations to collect statistical data on the race, color, and national origin of participants in its programs. Data is collected from the U.S. Census Bureau, Executive Board, and Technical Advisory Committee meetings, public meetings, planning study surveys, and procurement contracts. Data collection efforts specific to each program area are described on an annual basis in the Sun Corridor MPO Title VI Implementation Plan. Annually, the data collection findings from each program area are reported in the Sun Corridor MPO Goals and Accomplishment Report. The data will be maintained for the purpose of planning projects and programs. Demographic Maps can be viewed as an attachment (Exhibit “B”) of this document.

Executive Board & Technical Advisory Committee Meetings – Self-Identification Surveys in both English and Spanish are made available at each Executive Board and Technical Advisory Committee meeting. The data collected from these surveys allows for the analysis to ensure that all persons have an equal opportunity to benefit from or have access to the activities of the MPO and to avoid any disproportionate impacts from those activities.

Public Meetings - Self-Identification Surveys in both English and Spanish are made available at each public meeting. Public involvement materials including meeting notices, project fact sheets and/or flyers and other documents are made available in both English and Spanish to ensure persons with language needs are being met. The data collected from the surveys allows for the analysis to determine if Title VI neighborhoods are receiving equal benefit and not a disproportionate burden.

Planning Studies – As part of the public outreach process, surveys are made available to the public either on-line and/or in hard copy to collect a variety of data for planning studies. Statistical data such as race, color, and national origin are captured during these surveys. The data collected from these surveys allows for the analysis to determine if Title VI neighborhoods are receiving equal benefit and not a disproportionate burden. As a best practice, a Four Factor Analysis is conducted on the planning study area to determine if study documents need to be provided in both English and Spanish.

Procurement – AZ UTRACS is utilized to collect race and sex of all bidders and contract awardees, to ensure DBE compliance.
